

3.7 **COUNTRY NAME** Waste Management and Recycling Infrastructure Assessment

Overview

REPLACE THIS TEXT WITH a 2 - 4 paragraph narrative on the waste management handling and disposal processes in the country. Specify who manages waste management i.e. the municipality, waste management companies, etc. and detail their waste management processes (i.e. landfill, incineration, etc.). Identify any gaps in waste management collection and disposal (i.e. absence of government capacity, lack of authorized companies, etc.). Include information on any environmentally sustainable waste management regulations/legislation including on bans (i.e. single-use plastic, food waste, etc.) and regulations supporting a circular economy model (i.e. supplier reverse logistics schemes, right to repair, etc.).

Non-Hazardous Waste Management

REPLACE THIS TEXT WITH a 1 - 3 paragraph narrative on the availability of the non-hazardous waste management processes (collection, reuse, repurpose, recycle, disposal). This includes, but is not limited, regular waste from an office, warehouse, compound, fleet, etc.

Hazardous Waste Management

REPLACE THIS TEXT WITH a 1 - 3 paragraph narrative on the availability of hazardous waste management processes (collection, recycling/treatment, disposal) including electronic-waste, appliances, air conditioners, refrigerators, oils, petrol, and lubricants, batteries, etc.

Medical Waste Management

REPLACE THIS TEXT WITH a 1 - 3 paragraph narrative on the availability of medical waste disposal facilities, including authorised medical waste disposal providers and if possible, a national focal point (i.e. government agency, department). If there are no authorised medical waste disposal provider, include information about the treatment process of pharmaceuticals i.e. expired, damaged, etc. Detail any regulations/legislation regarding medical waste management including environmentally sustainable initiatives.

For more information on waste management and recycling company contact details, please see the following link: [HQ staff will input a link to section 4.12 Waste Management Companies Contact List here.](#)

For more information on waste types, see this [Quick Guide: Solid Waste Management \(SWM\) Guide](#) or contact the [WREC Coalition](#).
