

Q3 2025 EMERGENCY PREPAREDNESS

47 STAKEHOLDERS ENGAGED

LEGEND

- COORDINATION
- INFORMATION MANAGEMENT

HIGHLIGHTS

The National Logistics Working Group (NLWG) was launched. Its terms of reference have clear roles and responsibilities. This will contribute to improvements in collaboration and logistics coordination for more efficient emergency preparedness and response.

The co-creation of Standard Operating Procedures (SOPs) translated strategic frameworks into actionable guidance, which, when finalised, will enable stakeholders to respond more effectively to multi-hazard scenarios.

Information sharing was strengthened through continuous engagement and dialogues with partners contributing to improved logistics coordination in Tanzania.
