ACTION POINTS	• Partners interested in joining the upcoming convoy movement (Addis Ababa - Bahir Dar), should email ethiopia.humanitarianconvoys@wfp.org for further details. • Partners requesting common services must complete the Service Request Form (SRF), available online on the Ethiopia Logistics Cluster website, to access transport and/or storage support.

1. Logistics Cluster Updates

General Updates – As of 11 February 2026

- In January, the security situation across northern areas of the Amhara Region remained volatile and unpredictable, particularly along the Amba Giorgis – Dabat – Debark corridor, and Alamata – Kobo route. The situation has affected movement across several areas, with reports of road closures in different parts of the region.
- In the past few days, the security situation in several woredas of the Central and South Gondar Zones has been reported as highly volatile, and obtaining real-time access updates is strongly recommended before planning any missions.
- Following a joint mission led by multiple organizations, the security situation along the Gondar – Dabat – Debark – Ade Arkay route had shown significant improvement over the past few months. However, recent reports indicate renewed deterioration along parts of the route.

- A joint security and access assessment along the Gondar – Metema route was conducted between 28 January and 1 February 2026. As a result of the assessment, some improvements were reported. However, Government security escorts remain essential as a short-term measure.
- An access and security mission along the Bahir Dar – Adiet – Motta route is ongoing from 10–13 February. This route has been restricted for movements for months. In addition, an inter-agency assessment mission is ongoing from 9–13 February along the Dessie – Woldiya – Kobo route, with participation from multiple partners.

Convoy Movement Updates (22 January – 10 February 2026)

- During the reporting period, the Logistics Cluster coordinated four convoys comprising a total of 26 trucks. The Convoys were organized for delivery of essential supplies from Adama/Addis Ababa to Finote Selam, Bahir Dar, Woreta, Gondar, from Gondar to Dabat, Debark, Janamora, and from Metema to Gondar.
- **Planned Convoys:** A Convoy is scheduled to depart from Addis Ababa to Bahir Dar and Gondar. The departure date will be confirmed in the coming week.
- Partners were reminded to submit their request to join the scheduled convoy movements through ethiopia.humanitarianconvoys@wfp.org

Operation Overview – 2025

- The Logistics Cluster presented its 2025 achievements in the key service areas, including transport, storage, airlifts, and convoy coordination.
- Throughout 2025, the Cluster coordinated 76 convoys comprising 409 trucks, including 63 partner trucks and 26 light vehicles.
- A total of 8,899 m³ of various categories were transported to the Amhara Region. The majority consisted of Health supplies (37%), followed by WASH (33%), Food Security (18%), Shelter (4%), and other items (9%). Additionally, 1,296 m² of cargo was stored in the Gondar and Kombolcha warehouses.
- In close collaboration with UNHAS, the Logistics Cluster supported the Health Cluster through 12 flights. Between 19 and 30 December 2025, seven flights were conducted to Bahir Dar and five to Gondar, transporting a total of 11 MT of life-saving humanitarian cargo.
- The full overview report can be accessed here: [Amhara Regional Operation Overview, 2025](https://logcluster.org/ops/eth20a)

2. AOB

- Storage space is available in Gondar (20%) and Kombolcha (100%). Partners are encouraged to utilize the available space.

The next Logistics Cluster Coordination meeting will be held on 25 February 2026.
