

Baldr laughs as he sees Thor tighten his fist with child-like aggression as they both stand still.

BALDR

(slight chuckle)

54 Frigg always taught us to be honest to
one another did she not?

THOR

55 You make a fair point, maybe I have
misjudged my temperament.

BALDR

56 Listen, you and me both know what your
true purpose is amongst the Aesir and
our people.

Thor takes a deep sigh as he sits down and stares longingly ahead of him. Baldr takes a seat beside him.

BALDR

57 Thor, you were made to lead, each and
every day we grew taught me why father
always kept his attention and
strictness closely on you.

THOR

58 That was nothing more than punishment
for my foolishness...

Thor looks down in regret whilst Baldr lets out a chuckle and looks at Thor, once again placing his hand on his shoulder.

BALDR

59 It was a part of it yes, but he also
knew what a great leader you were
destined to become.

THOR

(laughs angrily)

60 Leader? What kind of leader would
mistake a household pet for one of
Loki's deceptions!

Thor shrugs off Baldr's arm in anger.

BALDR

61 A leader who is cautious and willing
to protect those around him!

Thor looks at Baldr plainly and shamefully.
