MILLENNIUM
POINT

MILLENNIUM POINT

WHY WE EXIST

Millennium Point is the largest millennium project outside of London and is home to a number of leading Birmingham businesses and organisations. The building has multiple tenants and both public and private event spaces available for hire.

Owned by the charity Millennium Point Trust, Millennium Point exists to support STEM (science, technology, engineering and mathematics) and education in the West Midlands region. With profits from commercial activity supporting these objectives, booking one of the spaces at Millennium Point helps to support the charitable objectives of the trust, and in turn widen your company's CSR footprint.

OUR EVENT SPACES

With a versatile range of both public and private spaces available for hire, Millennium Point is the ideal location for exhibitions and networking, launches and banqueting, and interviews and performances. The five-storey central **ATRIUM** provides a modern, public setting with high footfall, whilst **CONNECT** provides a discreet setting for private meetings and events.

When you book an event with us, we ensure that everything runs smoothly from start to finish. We can offer support with venue management and visitor marketing, and have a range of catering packages to choose from.

KEY FEATURES
