

Aures London
GRAFFITI EXPERIENCE

GRAFFITI EXPERIENCE

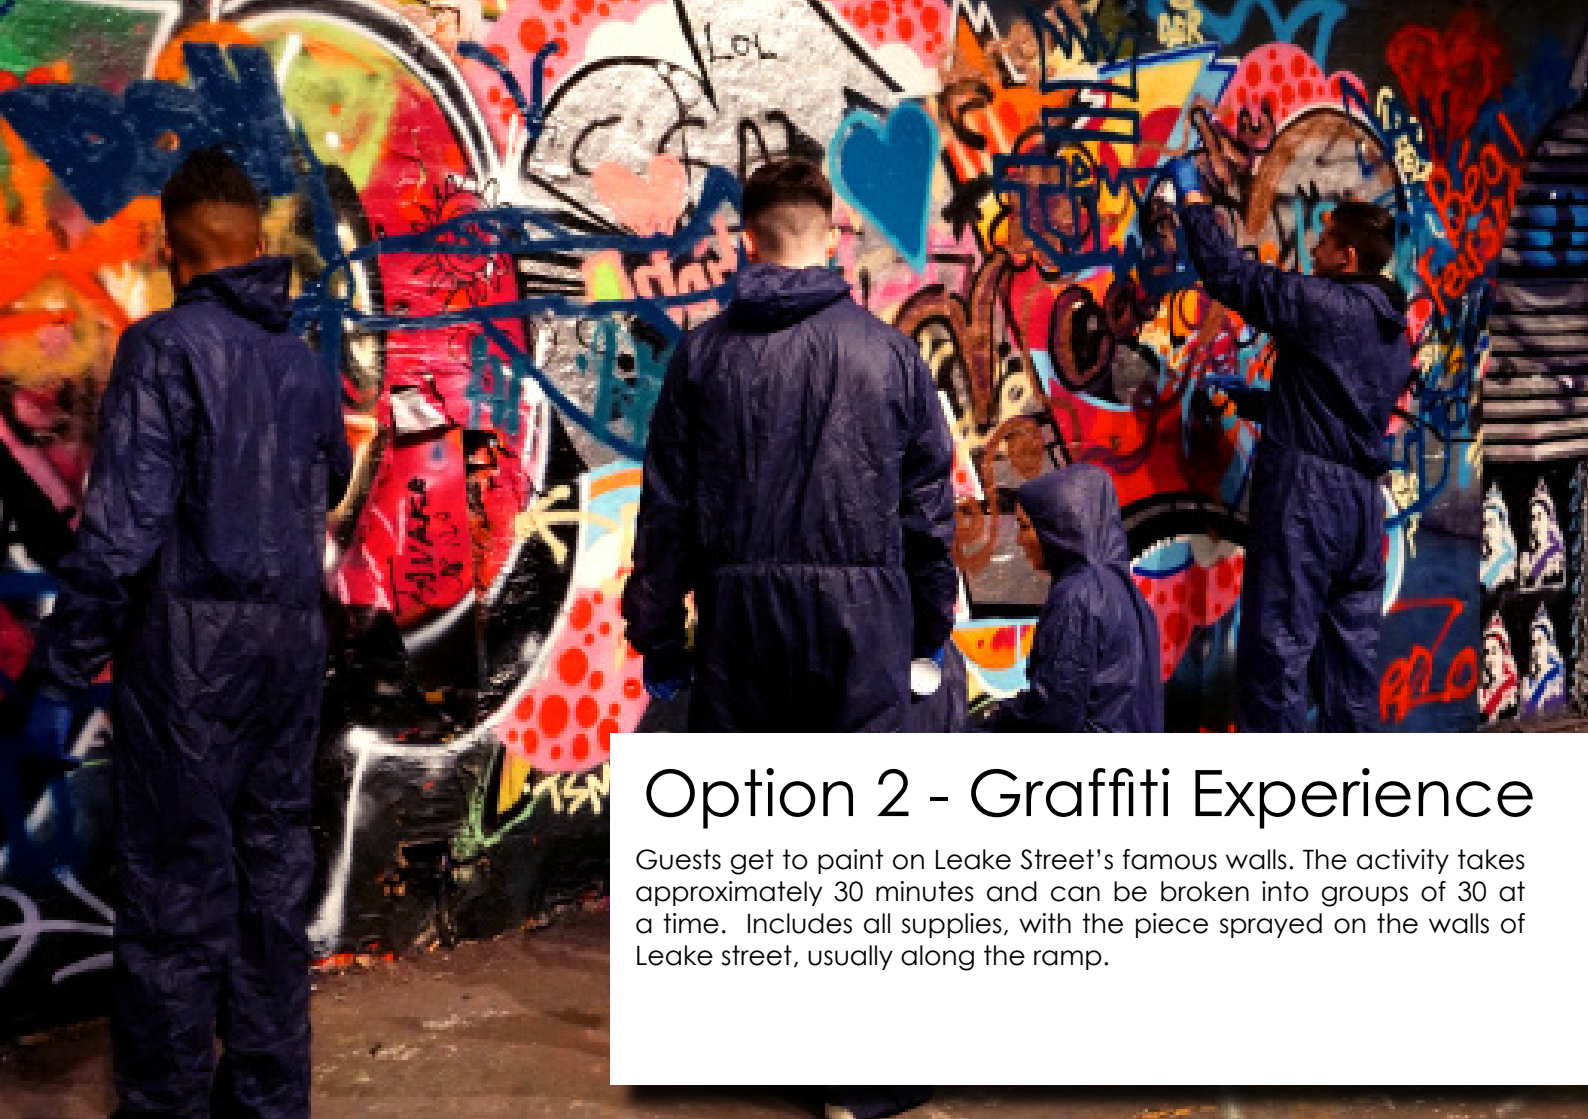

Aures London is located on Leake Street aka the world-famous 'Banksy Tunnel' - Europe's largest legal graffiti site that features amazing artwork that is constantly changing.

We work with a network of the best local street artists to offer a fun team building experience where guests learn about graffiti and get to try their hand at spray painting for groups of 30 people to 300 (all experiences include boiler suits, gloves and a tour of Leake Street with a history of the graffiti movement and some of the existing artwork on the walls).

Option 1 - Group Mural

This takes approximately 2-3 hours and can be broken into groups of 30 at a time. The activity is led by professional artist and all supplies are provided. The artwork is painted onto canvas or paper and can be taken away with you (though we recommend paper as it doesn't need to be stretched afterwards). Note that the direction of a theme, colours, logo are needed at least 2 weeks before your event.

Option 2 - Graffiti Experience

Guests get to paint on Leake Street's famous walls. The activity takes approximately 30 minutes and can be broken into groups of 30 at a time. Includes all supplies, with the piece sprayed on the walls of Leake street, usually along the ramp.

Option 3 - Paper

This takes approximately 30 minutes and can be broken into groups of up to 50 at a time. Led by professional artists and includes all supplies. The piece can be done on individual pieces of paper and then rolled up and taken away as a souvenir. We recommend a planetary solar system theme. Alternative themes, colours, logo inclusion are needed at least 2 weeks beforehand.

Option 4 - Tote Bag

This takes approximately 30 minutes and can be broken into groups of up to 50 at a time. Led by professional artist and includes all supplies. The piece can be done on individual pieces of tote bags and then taken away as a souvenir. Logod tote bags available at additional cost. Themes, colours, logo inclusion are needed at least 2 weeks beforehand.
