

Immersive Virtual Experiences, Broadcasting & Streaming Events

Aures London

Customizable surround visuals, high-quality audio transmission and multiple HD camera angle filming, including drone technology. Broadcast your live streaming event to YouTube, Instagram Live, Twitch or other platform from our immersive tech suite.

Create stunning immersive events, live streaming and virtual performances to connect with your audiences during the uncertainties of the Covid19 pandemic

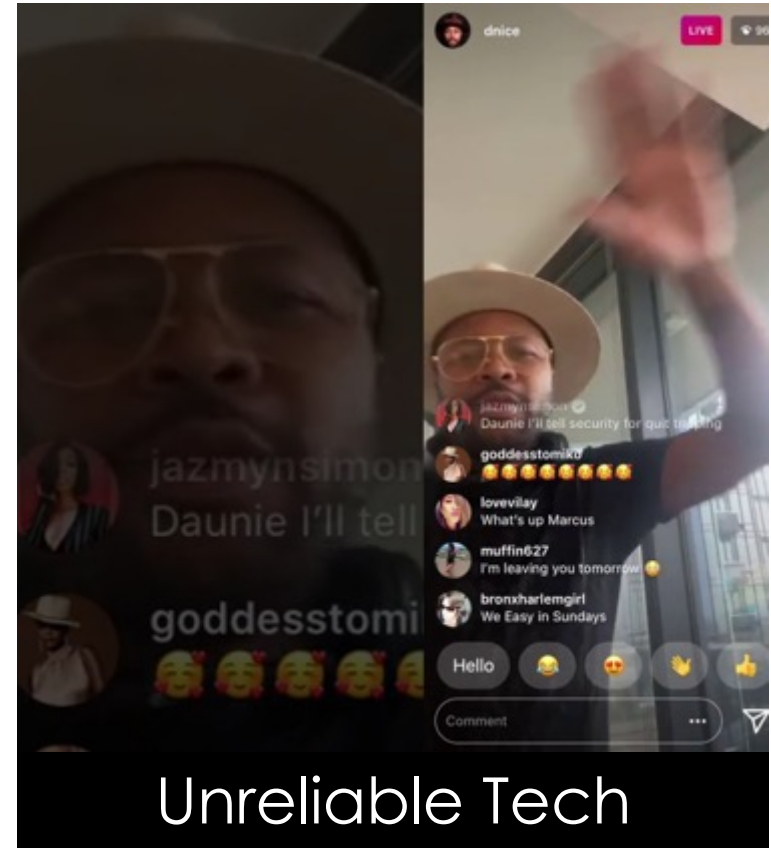

The Problem

Poor Audio

Poor Optics

Unreliable Tech

Even with high-profile artists, most live streams are very often static with only one or two camera angles and are visually very boring. Unreliable tech, low quality audio, no visual story telling make them unengaging, uninteresting and easy to switch off.

The Solution

Aures London's immersive tech streaming suite creates stunning audiovisual immersive events, live streaming and virtual performances to connect and engage with your online audience.

Awesome Visuals Experience

We have huge double 15 x 3.5m projection screens along two walls plus a 4 x 2m rear projection screen behind the DJ booth. Customisable immersive visuals processed through Resolume 7.0 with live feed capabilities.

Professional Audio

Pioneer-sponsored DJ booth, Pioneer Pro Audio immersive speaker set-up. Broadcasting in 512 b/s for the high stereo quality audio for those listening online.

Capture and Broadcast

Multi-camera streaming set-up, using Atem 4 HD camera control system plus live motion drone cameras

1 Gb up and down fibre optic connection for reliable live streaming.

The best location for:

- Live streaming events
- Virtual gigs and concerts
- DJ & VJ performances
- Panel talks
- Meetings & small conferences
- Intimate immersive dining

About Aures

Opened in 2018, Aures London is an events space in Waterloo that hosts unique multi sensory experiences using immersive technology. We champion innovation and development by bringing together leading scientists, innovative brands, pioneering artist and cutting-edge technology to create extraordinary, live sensory experiences.

Since our launch, we have hosted a wide range of innovative events for clients such as YouTube, Warner, Sony, Spotify, Kiehls, Lululemon, Deloitte and Marriott Hotels, Fitch and Olgiv.

We are the UK's leading WellTech venue, we go beyond the traditional realm of events to improve guest wellbeing in our space through

multisensory technology. It is our mission that guests leave each event feeling less stressed, with a greater sense of wellbeing. Our range of research-backed WellTech experiential event services increase guest wellbeing, brand engagement, interaction and connectivity with others.

Aures London is committed to following, improving and promoting good sustainability practices throughout our work. We work hard balancing commercial requirements of the company with an ongoing responsibility to the impact on the environment and social well-being of our stakeholders.
