## Conference & Events Facilities

### The Constellations

#### **Pegasus – The Winged Horse**

*A constellation named for Pegasus, son of Medusa. Pegasus caused the spring of Hippocrene to flow with a single kick of his hoof. Hippocrene is said to be the source of inspiration to poets.*

#### **Corvus – The Crow**

*The constellation Corvus is named for the Raven or Crow, made sacred to Apollo because he assumed its shape during the conflict with the gods. The story of Coronia tells how Corvus reported Coronia's unfaithfulness to Apollo, and was promptly turned from his former silver hue to the present black by his outraged master.*

#### **Tucana – The Toucan**

*Named after the brightly coloured, large beaked bird of Central and South America, the constellation known as Tucana contains the Small Magellanic Cloud – a small, irregular galaxy most of us know and love as the Milky Way.*
