# Wild by Tart

Wild by Tart is a neighbourhood restaurant set within a multipurpose space. Housed in a former power station and coal store, the 9,000 sq. ft site combines a restaurant, bar, retail store, events space, and photography studio. Founded by Jemima Jones and Lucy Carr-Ellison, the successful duo behind bespoke catering company Tart London.

Wild by Tart is an independently run company celebrating the love of food, drink, travel, and the arts. Lucy and Jemima have farms in Northumberland and Somerset from which we source ingredients and produce whenever possible. We are selective about the partners we work with, always conscious to work with people who have unique stories of sustainability or craftsmanship.

We take great pride and care in ensuring you and your guests receive memorable experiences at Wild by Tart. When choosing to host your event with us, you will work with a dedicated events manager who will guide you through the planning stages and menu selection. They will be on-hand in the lead up to answer any questions and be present on the day, overseeing the smooth delivery of your event.

The Studio has its own private entrance that is street level, as well as a bar, bathrooms, and cloakroom. It is also outfitted with AV equipment including a projector, speakers, and microphone.

In addition to a private hire space, we have an exciting Tart events program with wine-tastings, supper clubs, workshops, life drawing, and

The space offers a highly versatile platform to cater for a wide variety of events, from awards ceremonies to press launches, fashion shows, and weddings. Production and AV from our preferred suppliers are on-hand to transform the space and tailor it to suit your needs.

# Our Food

We cook food that excites us - using seasonal ingredients that work well together, are rich in nutrition, and carry the vibrant colours of their unique time of year. We love exploring these flavours and textures through the presentation and combination of dishes. Moreover, eating with the season makes it easier to keep to our mantra of 'buying local'. We offer a selection of menus for all types of events. Our menus change with the seasons, and we can adapt our offering to suit dietary requirements.

If you are interested in offering a different style of menu, our team can work with you to curate a bespoke offering for your event with the help of our team of talented Tart chefs.

# Wine & Cocktails

Our approach to drinks reflects our seasonal influence, with the cocktails and purées changing as often as the food menu does.

We pride ourselves on delicious house-made ingredients such as cordials, shrubs, tonics, vinegars, and ferments - they play into our mission to waste as little as possible.

The bar team is on hand to create bespoke cocktails tailored to your taste and style of event.

Our wine list features producers who utilise low intervention techniques - many of it organic or biodynamic, and made by small, independent vignerons.

We are happy to help source specific wine for your event or offer a corkage fee should you wish to bring your own.

## Music Guidelines

For whole venue events the decibel limit is 85 dB. Only acoustic live bands and DJs are permitted to play music in the venue, and not amplified live bands.

For the studio the decibel limit is 65 dB All music, DJs, or entertainment noise should be at background level, as the Studio sits adjacent to the restaurant, and guests dining in the restaurant would be able to hear sound levels above the limit. As with a whole venue event only acoustic live bands and DJs are permitted to play music in the venue.

*Should the noise levels go above the decibel limit, the Venue manager onsite may stop any further music and/or sound from being played.*

No deliveries or collections are permitted at the venue outside of these hours. Timings for deliveries and collections must be confirmed in advance with our events team.

Please note that all storage timings are at the discretion of the event manager depending on the amount of items or scheduling

Please note that all waste produced by set-up/de-rig and production by the client or production team needs to be removed off-site post event.

# Set-up & De-rig

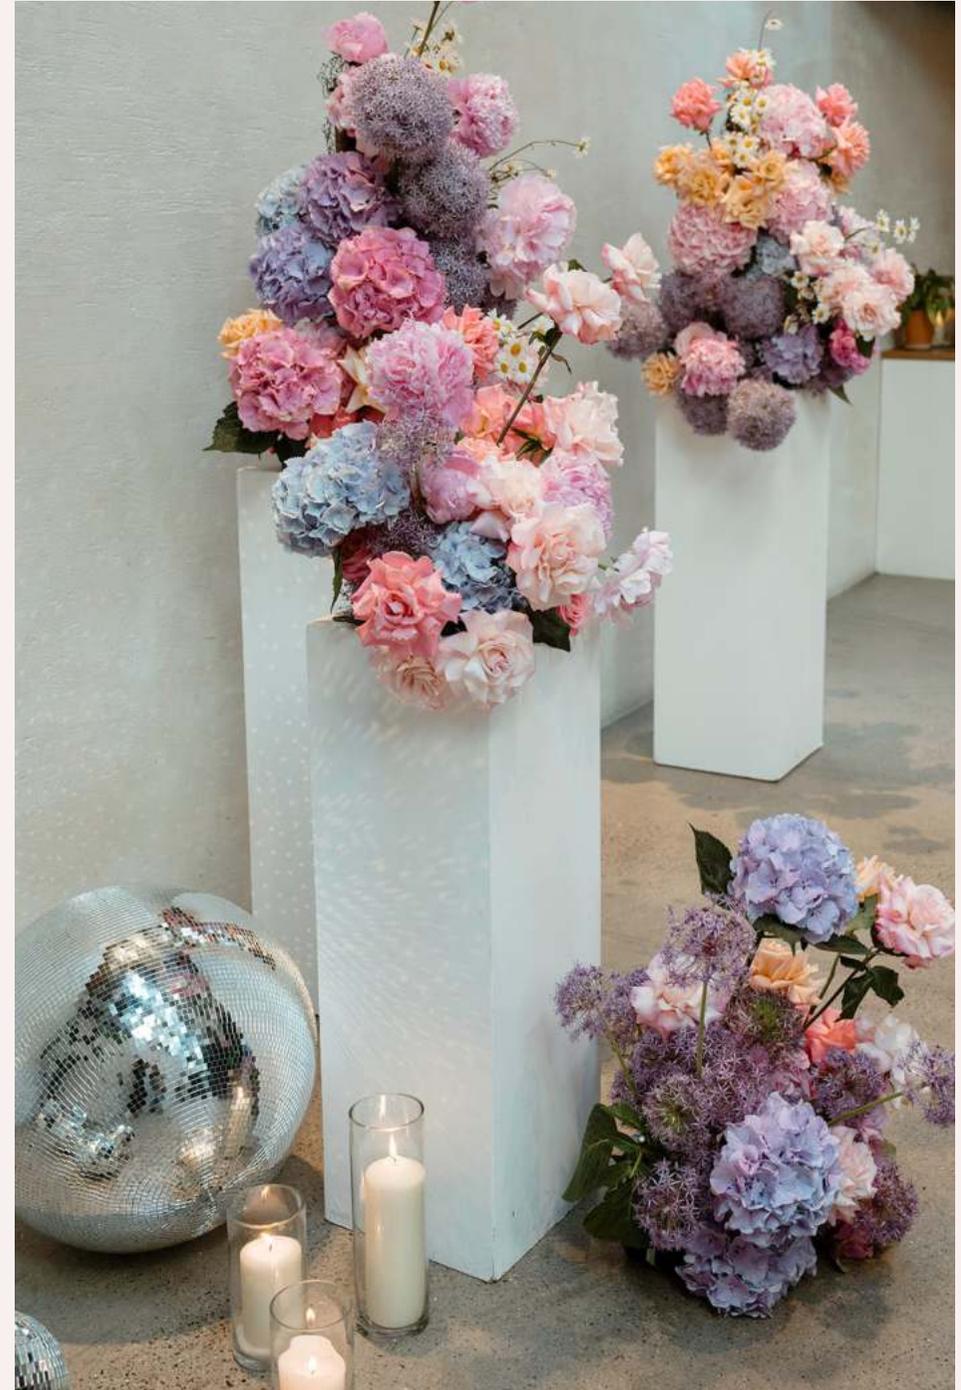

Please note that we have various limitations on noise levels throughout the day, due to the location and layout of the venue.
