THE UPPERCLUB

BY PAUL LINSE

Sometimes, sticking to your own club is not all that bad. This part of the glass dome we call the High Light has Capital C's best view over Amsterdam and it could be yours if you're looking for 96 m2 of perfect viewpoints with its own bar. The Upperclub can easily be connected to the Above & Beyond, to combine work and fun.

Are you looking for a unique dinner location for a smaller group? The Upperclub offers the best private dining experience with a view of the Rijksmuseum.

NICE TO KNOW...

The High Light is full of surprises. The dome is equipped with integrated solar cells that generate energy and keep the sun out to keep the indoor climate as comfortable as possible. The green roof acts as a rainwater buffer and increases biodiversity, filters fine dust from the air and retains CO2.

Like the view over the city (hello, sunset) isn't enough already, also the floor is an eye-catcher. Walk on a 3D-print of beer bottles of the brand Bud. Sustainable and pretty. An event location with a floor you will not find in any other place in The Netherlands.

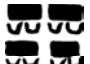

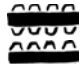

THE FIRST IMPRESSION

The artists 'Children of the Light' made sure that your guests enter the High Light in a very special way. You never get a second chance for a first impression right? Capital C knows how to impress. The combination of light and sound will guide you to this impressive High Light of our building. This kick-off of your event, really kicks ass!

SET-UP & SPECIFICATIONS

The High Light can be rented entirely or in various parts and combinations. We have flexible walls that can (un)lock the spaces in all kinds of combinations.
