*Workshop & movement area*

Upon entering Gravitas you're greeted by our open studio area. Ideal for movement based workshops and activities, or for larger groups and events. We have two sinks, fridge, soup heater, and small coffee machine. All of which are available for use. All the furniture can be rearranged to suit.

### *Library and lounging area*

Towards the rear of Gravitas you will find our 'Library' and our 'solo' spot. The Library space is set up as a cosy but social space. We typically use this space for intimate literature groups, poetry clubs and the like. Again, our space is flexible so furniture can be rearranged as needed.

### ***The Sanctuary***

The gem of gravitas, a private but spacious treatment and therapy room with our motorised massage bed. There is also a consultation area, typically used for one to one therapy or guidance work.

*Additional information.*

There are toilets, however these are downstairs and shared between the other studios in this building.

There is parking available at the front and the back of the building.

We are a queer run space, so if your event is in anyway discriminatory, we won't be able to accomodate you.

*To get rates for your event please tell us:*

What is the expected **turn out** for your event, and are **tickets** required? If so, what is the **cost** of the ticket? We also need to know **what time** of day, outside our business hours allows us to lower the price. And finally **how long** will your event run for?

*Please note:*

We keep our rates flexible as we strive to keep GRAVITAS open to as many people as possible, so for each event hire we take into consideration your requirements and expected profits.
