A brand built on sustainability

REDUCING ENERGY CONSUMPTION AND OUR ECO-FRIENDLY APPROACH

Adopting large-format bathroom amenities reduces plastic waste.

Filtered water in meeting areas and guest room water in glass bottles means 300+ plastic bottles foregone in every guest room each year.

Using biodegradable take-away coffee cups, instead of traditional alternatives, reduces our impact on the environment.

The filling of our indulgent bedding is made from 100% recycled materials.*

Aerated shower heads, reducing water usage and ensures lower energy consumption for water heating.

“Green ingredients” in bathroom amenities, obtained from sustainable or renewable plant-based origins, where its sourcing does not negatively impact the ecosystems.

***Estimated equivalent saving/reduction of 150 plastic bottles recycled per voco™ guest room, based on medium weight king duvet and four pillows per room**

Significantly reducing plastic waste.

IHG Green Engage™ provides our hotels with more than 200 Green Solutions, helping them manage and report their use of energy, carbon, water and waste, and minimise their environmental impact.
