ABOUT WEST HOTEL, CURIO COLLECTION BY HILTON

West Hotel is a sophisticated hotel located on the western side of Sydney's CBD beside iconic Darling Harbour, and up-and-coming cultural and commercial hub, Barangaroo.

Distinctively independent in character and full of designer touches, bespoke botanical motifs and striking geometric lines flow from the hotel façade through to the back-lit feature petals in Telopea meeting room.

Technology solutions, like integrated bluetooth speakers in every room, combine with experiences that help you disconnect: the atrium 'jungle' enjoying sunshine, natural amenities and on-trend healthy food and drink. Consistent service ensures every stay at West Hotel is effortless, and the team is ready to help you discover a new side of Sydney.

Our interior is a modern interpretation of the patterns, colours and textures of the Australian landscape, including the choice to feature native Australian botanical designs. These botanicals are a nod to the native harbour side bushland that was once on this site.

Boutique. Designer. Effortless. Rejuvenating.

OUR EVENT SPACES

Telopea Meeting Room

Located on the ground floor and with atrium views, the Telopea meeting room enjoys natural light and flexible configurations. The space is ideal for all manner of events including board meetings, training workshops, and small product launches. The room can accommodate groups of up to 50 guests and is equipped with start-of-the-art audio/visual capability that includes intuitive projector, screen and integrated speakers.

Atrium

The centrepiece of West Hotel, the stunning open air 'jungle' atrium with luscious foliage and sparkling festoon lights, creates a relaxed oasis.

With seamless indoor/outdoor flow from Solander Dining and Bar, this space has the ability to be opened to the indoors, or completely private. It is a rejuvenating and beautiful open-air space where guests can enjoy a sit down dinner, stand up cocktails or a private ceremony or presentation.

Solander Dining and Bar

This bar and restaurant is all about botanicals. It's name was taken in homage to Daniel Solander, a naturalist who traveled on the Endeavour in 1768 to help document Australia's plant life.

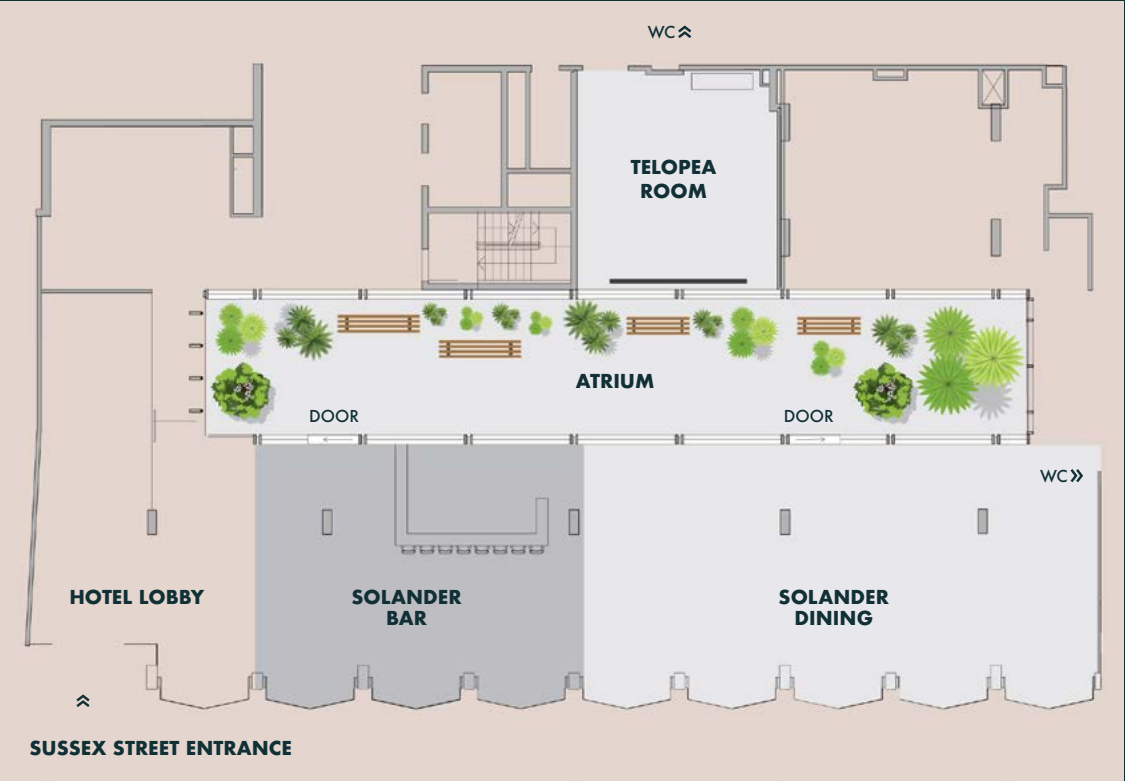

Overlooking Sussex Street to the East and the lush atrium garden to the West, Solander Dining offers modern Australian fare, and food philosophy to embrace and support the very best regional and seasonal produce from sustainable sources that New South Wales has to offer.

Solander Bar's extensive drinks list includes bespoke botanical-inspired cocktails, non-alcoholic cocktails and a range of boutique Australian and international spirits, wines and craft beers.

The space is sophisticated, intimate and striking making it a unique and memorable venue for a celebration lunch or dinner for up to 60 or an office cocktail party of up to 90.

Floors are a distinctive, green and white geometric marble design that offset the plush dining chairs made of rich jewel-toned velvets, tables of warm hardwoods, and brass light fixtures. The bar is a centrepiece, made of one monolithic piece of green terrazzo, with an eye-catching backlit bar display above. Both the bar and dining room enjoy views and direct access into the atrium.
