About Our Meeting & Training Rooms

These are different from your ordinary meeting rooms. At Collaborative One, we reimagined the meeting and training sessions concept and rebuilt it from the ground up. The rooms facilitate a 360-focused camera that tunes in every individual in the meetings, making sure your voices, thoughts and opinions are heard. Brainstorm collaboratively, involve the team, step away from boring meetings and pave the path for a successful meeting.

The state-of-the-art technology makes meetings seamless whether using Zoom, Teams or Google Meet.

The training rooms within C1 provide an open playing field where businesses can come together and collaboratively learn new tools, launch new products, prepare for big meetings and much more.
