THE DESIGN

Designed by OV&Co, the restaurant showcases a profound interplay between people and space, a hallmark of the renowned LA-based design firm. The selection of finishes and objects reflects a meticulous fusion of visual traditions from Mexico and Japanese aesthetics. The earthy colour scheme contrasts with the building's modern exterior, creating a warm and grounded ambiance. The space seamlessly connects different areas, with artist Cherry's Chung's woven tunnel adding an immersive touch from the lively agaveria to the main dining sections featuring a bonsai garden and Josefine Winding sculptures, leading out to the serene outdoor terrace.

Notable artworks include colourful murals and ceramic masks by world renowned Mexican artist Jorge Tellaache, lighting installations by Mexican artist Oms, and pop art portraits by muralist Dimitrias Meizar. This expertly crafted environment invites guests to explore and enjoy its diverse elements, blending cultural influences and artistic expressions into a cohesive and captivating dining experience.
