BRIDGE THE DIVIDE

Within a given time constraint groups initially construct sections of their bridge/track from a blueprint that form part of a large scale, spectacular remote control car race arena! Seems easy enough, but it soon becomes apparent that working within groups may not necessarily be the solution.

Get creative with our fun Great British Cupcake workshop!

LIGHTS, CAMERA, ACTION

All companies need to advertise and what better way than creating your own advert.

In Lights, Camera Action, you will need to select a team member who will make for an epic director, then script writers with talent and of course the actors and actresses. Once the script is done, direction is sorted, costumes chosen, it's time to rehearse. Make sure the entire team is well briefed and knows their lines and queues.

Bring out your inner thespian.

A TASTE OF THE VINE

A Taste of the Vine is played in small teams, usually 3 or 4 guests in each. Our expert presenter will give a short brief on the taste and aroma and how to identify the wines, and then The Wine Game begins! Teams get swirling, sniffing and sipping to identify each wine and create a challenge board to test the other teams' tasting skills. The game is interspersed with our fun quiz and topped off with the 'Fizz Finale' blind taste challenge!
