TRAINSCENDENCE

In the heart of Collingwood, Trainscendence spans two buildings, offering 10 unique floors. These include the two iconic decommissioned Hitachi train carriages perched on the rooftop.

Trainscendence was started with a simple but ambitious idea: to build a space where creativity,

collaboration & community come alive under one roof.

A quirky, creative co-work & co-dreaming space, we aim to break down boundaries between work, rest and play. More sharing, less isolation.

We love it when diverse activities are happening across our various floors, allowing for connections to arise organically in a thriving hub of art, wellness & wonder.
