

# ESG

## ***BREEAM Excellence***

In 2022, we attained BREEAM Excellence accreditation, showcasing our dedication to sustainable building practices. This award-winning commitment sets the stage for an exceptional stay where every detail is crafted with the environment and your well-being in mind.

## ***SHe Travel Club Gold Award***

In 2025, we were awarded SHe Travel Club Gold status, recognising us for secure and safe travel experiences for women.

## ***AirRated Gold AirScore™***

A testament to our comprehensive air quality management, we proudly received an AirRated Gold AirScore™ in 2023, highlighting our commitment to your comfort, safety, and health.

## ***EarthCheck Bronze Benchmarked***

EarthCheck certifications are a badge of honour, showcasing our commitment to social corporate responsibility, caring for the community, and enhancing ecological sustainability across the hotel.

## ***ISO 14001 – 2015 Certified***

This achievement showcases our dedication to addressing global environmental challenges and enhancing our sustainability efforts through a structured approach to environmental management.

## ***AHEAD Award for Hospitality Experience and Design in Sustainability***

Proud winner of the AHEAD Award for Hospitality Experience and Design in Sustainability 2023 - this recognition is a reflection of our unwavering commitment to environmental responsibility and guest well-being.

# OUR INITIATIVES

## CARBON EMISSIONS AND WATER

Our hotel has a commitment to purchase only 100% green energy for both Electricity and Gas

Complimentary filtered water taps & infused water stations in lobby spaces reduce single-bottle use

Plastic bottles are replaced with glass bottles, preventing the disposal of over 2000 plastic water bottles per week

We actively promote biodiversity including the rewilding of flat roof outbuildings, bird boxes installed on upper floors, and introduction of external green walls within our landscaping

## WASTE AND CIRCULARITY

We have a commitment to eliminate the use of single use plastics

We recycle unused water from events into plant care

Waste separation is in place for all guest rooms and events

100% of our waste proudly diverted from landfill sites

## OUR FOOD PHILOSOPHY

Over 50% of our menus are vegan, vegetarian, or can be made so. Including partnerships with local vegan suppliers

We adhere to responsible sourcing by using only MSC certified seafood, free-range chicken and eggs, local grass-fed beef, and supporting local businesses

Our fish sourcing is exclusively line-caught, primarily from the local South coast or North Sea. We follow a nose-to-tail policy, buying whole fish and utilizing as much as possible to minimise waste

We partner with Tupinamba coffee to provide a coffee in all our premium guest rooms that is endorsed by WWF, and being 100% compostable pods
