Our Story

Since we opened 3 years ago, King's House has become a home in the heart of King's Cross. A centre of community, justice & entrepreneurship, and a premium venue for live streaming, conferences and events.

In October 2025, we launched All Saints, a second venue only 5 minutes walk from King's House.

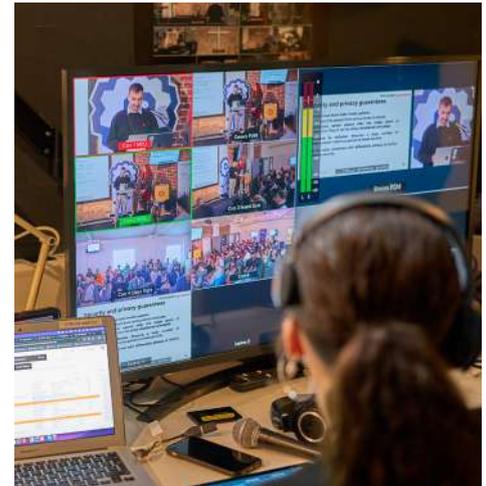

As part of King's Cross Church's vision (KXC), King's House aims to be an accessible community hub, housing local group activities and specialised services that support people from all walks of life to thrive. The event spaces for hire will help fund and fuel these groups, and the ongoing story of new life.

Following in its footsteps, All Saints provides a home for All Saints Church, additional space for community activities, and another venue space for hire during the week.

So, whether you want to participate in our venture by hiring a space, or would like to seek support for challenging circumstances, our door is open to you.

Welcome to All Saints

Our new venue is open for hire, too. All Saints is home to All Saints Church on Sundays and, during the week, provides additional space for community activities for both churches, and office space for local businesses.

It is smaller than King's House, but boasts the same warm welcome and versatile spaces. The 60-person hall includes a projector and PA system, partnered by two meeting rooms for groups of 10-12.

From 2021-2025, ARK Coworking, itself a product of KXC's entrepreneurial community, welcomed local businesses and entrepreneurs to form community in All Saints Church Hall.

All Saints will be continuing a rich legacy of community support, entrepreneurship and new life in King's Cross and beyond.
