# YOU'RE IN THE CLUB.

Yes, we're the UK's largest Padel club but that's just the start. Behind it sits 90,000sq ft of dynamic warehouse space built for bold ideas and experiences that endure. Team away days, dinners, product launches, conferences, brand collabs, parties & tournaments – you name it, if it needs energy and intent, we will make it work.

Our clients come to us when "ordinary" just won't cut it. We collaborate and curate your event from the ground up.

Welcome to Racketeer.

Our spaces are designed to host. We built Racketeer as a place for people to come together and create. Of course we host Padel but when it comes to events, we mean business.

Private dinners? We can turn our courts into private spaces that take you out of this world. Activating your brand? Let us build a court designed for you. A company AGM that goes from business in the day to party at night? We've for you covered.

The Main Hall is a fully flexible space that breaks down and works around you. Or if you want something a little more traditional, then our office spaces on the first floor are designed for function. So if it's a couple of courts, a meeting room, or a blank canvas venue - we are here to make your ideas a reality.

**YES, WE DO PADEL.**

# NO, WE DO PADEL.

Yes, we are the largest club in the UK. Yes, we have great coaches too. But our courts are a centrepiece all on their own:

- 12 professional level, full panoramic courts.
- The only venue in the UK with ring lighting over all courts giving unparalleled visuals on court.
- Full run-out on all courts.
- A 12.8m apex roof.
- Heated to minimum 18 degrees providing optimal temperature for gameplay.

So yes, in short, we do Padel.

“ From the moment we agreed the event, the team at Racketeer made us feel completely supported. Nothing ever felt too big or too ambitious, every idea was met with a “yes” and a genuine willingness to help bring our vision to life.

From planning through to execution, they took so much weight off our shoulders and made the whole process feel seamless. It never felt transactional, it felt like a true partnership.

I genuinely couldn't recommend them highly enough. We'll absolutely be back next year for something even bigger. ”
