Miss Selfridge
high summer 16

Miss Selfridge takes an ethereal and
ethereal inspiration for high summer 16.

Woodland inspired floral prints are the
backdrop for girls with waist flares and
laid back bohemian expression. To make you
feel as if you are in a forest, we have
put in 100s of flowers in delicate
gold and silver. All these more delicate than
anyone else's with nothing being too big.

Bohemian shapes combine the romanticism of the
collection as shoulders peek from oversized blouses
on structured corsets and 70s inspired blouses.
The modern bohemian is inspired for the new
season in black, silver, gold and white
bohemian accessories.
