PLAY

The Games

Our friendly hosts will be there to guide you, and best of all – they are one-handed games, leaving the other free for a cocktail, or two!

TABLE SHUFFLEBOARD

Fun, addictive and deceptively tricky.

Glide your pucks down the table and aim for the scoring zone – but the trick is to get it just right. Too hard and you'll overshoot, too soft and you'll fall short. Nail it, and you might just land a hanger for maximum points!

DECK SHUFFLEBOARD

The one you've probably never tried tried before!

Played on a court using ‘tangs’ (long sticks) to push push ‘biscuits’ (discs) into the scoring zone at the far end. the far end. It's all about precision, tactics and keeping keeping your nerve – hit the lines and you'll lose points, points, land in the kitchen and it's -10. And watch out… out… your opponents can knock your biscuits straight out straight out of play too!
