THELINEHOTEL.COM/DC

Housed in a neoclassical church that has been thoughtfully renovated to preserve the building's architectural features — including 60-foot vaulted ceilings, millwork and brass detailing, and large copper entry doors —the 20th century structure sits alongside a contextual addition connected through the lobby. The LINE DC includes 220 guest rooms, dining and drinking options, a live broadcast radio station and a rooftop with sweeping views encompassing the Washington Monument and the Washington National Cathedral.
