Guinot

Your skin is alive. At night it repairs itself and every 30 days it renews itself.

A radiant, healthy complexion depends on subcutaneous blood circulation.

We can delay the visible effects of aging giving the skin a younger appearance. Just as plants respond to nutrients and water, the skin can recharge its resources of energy and revitalising substances that reactivate the cellular functions that make it look younger.

Remember that age 30 is the time to prepare for the skin's appearance at 40; age 40 is when to prepare for 50 and so on.

Hydradermie:

Known as the "Star Facial Treatment", Hydradermie is an exclusive Guinot treatment. In little more than an relaxing hour, our skin looks "brand new". With a monthly maintenance treatment your skin will become clearer, healthier and radiantly beautiful all year round. Using state of the art equipment, a galvanic current carries the active plant-based ingredients deep into the skin. Hydradermie leaves the skin deep cleansed, balanced, glowing and fully loaded with oxygen resulting in an improvement in hydration and fine lines. This treatment is suitable for all skin types and will be customised by your therapist to meet your skin's needs.

Once the Hydradermie treatment is completed, try the mirror test. Your face appears remarkably rested, serene and you will feel good about yourself.

Recommended as a course of three treatments or as a monthly maintenance treatment, Hydradermie is the most effective, deep-cleansing treatment for your face.

Double chin reduction and loose skin toning:

A high-tech lifting treatment without a knife Hydradermie Lift is a lifting treatment that also tones the skin and firms the face and neck deep down by exercising the muscles. With age and fatigue, the contours of the face become heavier and less defined, muscle tissue starts to sag and the signs of aging appear on the face.

Hydradermie Lift acts like a gentle body-building session lifting the features by acting on the muscles below to give the face a rejuvenated effect. Hydradermie makes the face look visibly younger, with no injections!

Beauté Neuve Peeling:

Beauté Neuve Double Peeling Treatment with Fruit acids, Glycolic Acids and Pure Vitamin C is a treatment for youth, radiance and anti-pigmentation.

With the development of the Beauté Neuve facial treatment Guinot has combined medical research with skincare expertise to create a professional skin renewing treatment which can be used on all skin types, including sensitive.

With fatigue, stress or age, skin loses its radiance and elasticity and pigmentation marks may appear. The epidermis is blocked by 'dehydrated cells', cell renewal slows down and the complexion appears dull or congested. One Beauté Neuve treatment will restore radiance and a course of three treatments for an anti-pigmentation or lightening effect, removes the dead cells and helps the skin to fully breathe again.

Liftosome Anti-Ageing:

The Liftosome Facial treatment is best suited for mature skins, and aims to energize, tighten and firm using Vitamin C to brighten the skin. Liftosome relaxes features, smoothes away fine lines and adds a luminous glow to the complexion.

Since both age and fatigue encourage sagging skin and a diminution of firmness caused by a combination of factors including a decrease in cellular cohesion and activity, diminution of elastic fiber synthesis, the effects of free radicals and UVA rays and poor oxygenation of the skin's cells, this facial has been directly targeted to repair the damage. Designed as more than merely a "lifting" treatment, the LIFTOSOME FACIAL acts on two levels, vertically for a firming action and horizontally to tighten the skin. Visually its effects are immediate with skin visibly enhanced at its conclusion.

Aromatic Facial:

Nature has created medicinal plants that have healed people for over 10,000 years. And it is from nature that GUINOT draws the plant concentrates and essential oils that make the skin more beautiful and radiant in this customised facial.

This aromatherapy treatment ends with a relaxing facial massage enhanced by pressure point techniques.

Essential Facial:

Using techniques and products suited to your skin type, our technicians will provide you with an individualised treatment. Starting with a full, deep cleanse, we will remove all the grime and dirt from your skin. Followed with a wonderfully soothing and relaxing application of GUINOT creams and products to rejuvenate and hydrate your skin. The gentle massage techniques will stimulate the circulation and the absorption of the special ingredients to help your face look younger and feel softer.

Teenage Facial:

Using techniques and products especially suited to teenage skin, our technicians will provide you with an individualised treatment. Starting with a full, deep cleanse, we will remove all the grime, oil and dirt from your skin. Followed with a wonderfully soothing and relaxing application of GUINOT creams and products to nourish and hydrate your skin.

Non-surgical face lift - Hydradermie Lift:

With age and fatigue, the contours of the face become heavier and less defined and signs of aging appear on the face. Using the Hydradermie Lift technology, we'll give your skin a "youth revolution" by stimulating facial muscles to give them new tone and exert a lifting effect on the features.

Results are visible from the first session! Hydradermie Lift is a lifting treatment that also tones the skin and firms the face deep down by exercising the muscles. In depth, the muscles regain tone and firmness, cellular activity is reactivated and the features are lifted to spectacular effect.

Hydradermie Lift Yeux:

The ultimate lifting and anti-ageing treatment for the delicate eye area, which includes lymphatic drainage, rehydration, regeneration and muscle stimulation. The treatment firms the eye contour, smoothes away fine lines and reduces puffiness

Hydradermie Lift Express & Liftosome:

Any courses of Hydralift treatments may be repeated four to six times per year. One can compare the benefits of Hydradermie Lift with an exercise programme at the gym - the best results will be attained with treatments on a regular basis. It is suitable for all skin types and is recommended for clients whose skin shows signs of loss of elasticity. These signs may appear from the age of 30 depending on hereditary factors, sun exposure, stress or weight loss.

Très Homme Hydradermie for Men:

This high-tech facial uses the galvanic and high frequency electrotherapy, bespoke active gels and Très Homme trio of products to deep-cleanse, oxygenate and condition your skin. The treatment is customised for your skin type (dehydrated, mature, oily sensitive or pigmented). A stimulating scalp massage may be added upon request.

Guinot Aromatic Body Bien-Etre:

This relaxing skin-softening treatment includes full-body exfoliation and de-stressing massage. A natural sugar-kiwi scrub containing exfoliating granules provides a thorough exfoliation. The massage uses an energising blend of citrus essential oils to invigorate and release tension.

Guinot Hydra Back Speciality:

Guinot's back speciality treatment is deep-cleansing and anti-bacterial, and hence perfect for the problem-prone back.

Guinot Pregnancy Pampering Treatment:

This relaxing treatment has been created especially for expectant mums. Experience one and a half hours of pampering incorporating a full body cleanse, tone, exfoliate and moisturise, lots of relaxing massage on lower legs and body using GUINOT'S specialised preparation. Treat yourself or someone else!
