

## Removal of Skin Lesions

PURE Medi-Spa offers advanced treatments to removed a variety of skin lesions and skin blemishes quickly and expertly. Unlike hair removal these treatments generally require only 1-2 appointments, and take advantage of the very precise needle control required by electrolysis. Our experts are trained to treat the following skin lesions,

- **Hair from all parts of the body**
- **Skin tags - commonly found on the neck, underarm and groin area**
- **Telangiectasia - also called broken veins, thread veins and red veins**
- **Blood spots - also called Campbell De Morgan spots or Cherry Angioma**
- **Warts and verrucae**
- **Age spots - commonly found on the face and hands**
- **Milia - small, hard, pearl-like spots often found around the eyes.**
