

A high-angle photograph of a modern outdoor patio. In the upper left, a white cushioned sofa with a light wood frame sits on a grey wood-plank deck. To its left is a white planter box containing a green bush. In the lower center, a matching white cushioned armchair with a light wood frame is positioned. To its right, another similar armchair is partially visible. The deck is made of long, grey wood planks. The overall scene is bright and clean, representing a high-quality outdoor living space.

Retail Pricing Guide 2021

Effective from 1st January 2021

ALL PRICES INCLUDE VAT AT 20%.

These prices are issued only to help consumers by providing typical retail prices for collecting quantities equivalent to 24 square metres or more from a retailer in Mainland Britain.

Millboard does not sell directly to consumers. This price guide is not an offer to supply, nor a promise that the products can be obtained at the guide prices indicated. Actual prices charged by retailers will vary depending on: Quantity; Delivery address; Delivery access; Offloading; Stock availability and Service provided. Prices are subject to change during 2021.

Why Millboard?

Our decking and cladding combines the beauty of natural timber with performance that real wood cannot match, providing long-lasting enhancement with minimal maintenance.

Hand-moulded from the finest pieces of oak, it boasts refined timber grain that mimics natural timber but is engineered to offer an enhanced decking experience.

Thanks to its unique polymer resin construction, our decking and cladding does not deteriorate like natural wood. Additionally, our unique surface provides exceptional slip-resistance, even when wet.

Resistant to algae

Unlike wood, there is no protein content to assist algal growth within the boards.

Slip-resistant

High grip surface much safer than wood, especially in the wet.

Moulded from real oak

Not extruded like most composites. Millboard decking looks just like the real thing.

Environmentally friendly

Base materials have low impact on global warming and ozone depletion.

Lightweight

Easier to handle and install.

Splinter-free

No wood content means absolutely no splinters.

Hygienic

It's non porous surface is easy to clean for spills and deposits.

Low maintenance

Resists stains from food or drinks spills and algae growth.

Does not warp or rot like wood

No timber content that will rot or be eaten by insects and pests.

UV and weathering stability

Millboard decking has been tested in most weathers and temperatures.

'Lost head' fixing

Durafix® fixings are virtually hidden beneath the unique Lastane® surface.

Low carbon footprint

Independently and UKAS accredited to the ISO 14064-1 Verified Carbon Footprint Assurance Mark.

Millboard has a policy of continual improvement to specification. Product blend, colours and sizes may change without notice. All sizes and measurements are nominal. Weights are approximate, shown for handling purposes only. Information is correct at time of going to press.

All goods are supplied in accordance with Millboard's Terms and Conditions of Supply available on our website.

The background of the advertisement is a photograph of a modern house. The house features a dark grey tiled roof, a section of white textured wall, and a large section of vertical wooden cladding. A dark grey front door with a silver handle and a small rectangular window is centered. Two silver wall-mounted light fixtures are on either side of the door. Two potted plants are visible at the bottom corners.
