

Who We Are

Espace Parallèle is a modular, light-filled space in Paris designed to transform at the speed of culture. More than a venue, it's a precision-built container where deliberate chaos can happen on purpose: store today, studio tomorrow, runway at midnight, workshop by morning, then radio, then ritual.

Surfaces are calm and considered so identities can run at full power; wayfinding is minimal, tools are invisible until needed. Hosts tune the frame like flow, lighting, sound, so brands, collectives, and communities can plug in, co-author, and make meaning in public.

The visual identity acts like the space itself: elegant dualities, a portal-like mark, rigor with movement. Espace Parallèle is the meeting point for design, craftsmanship, and emerging culture.

Freedom, with structure.

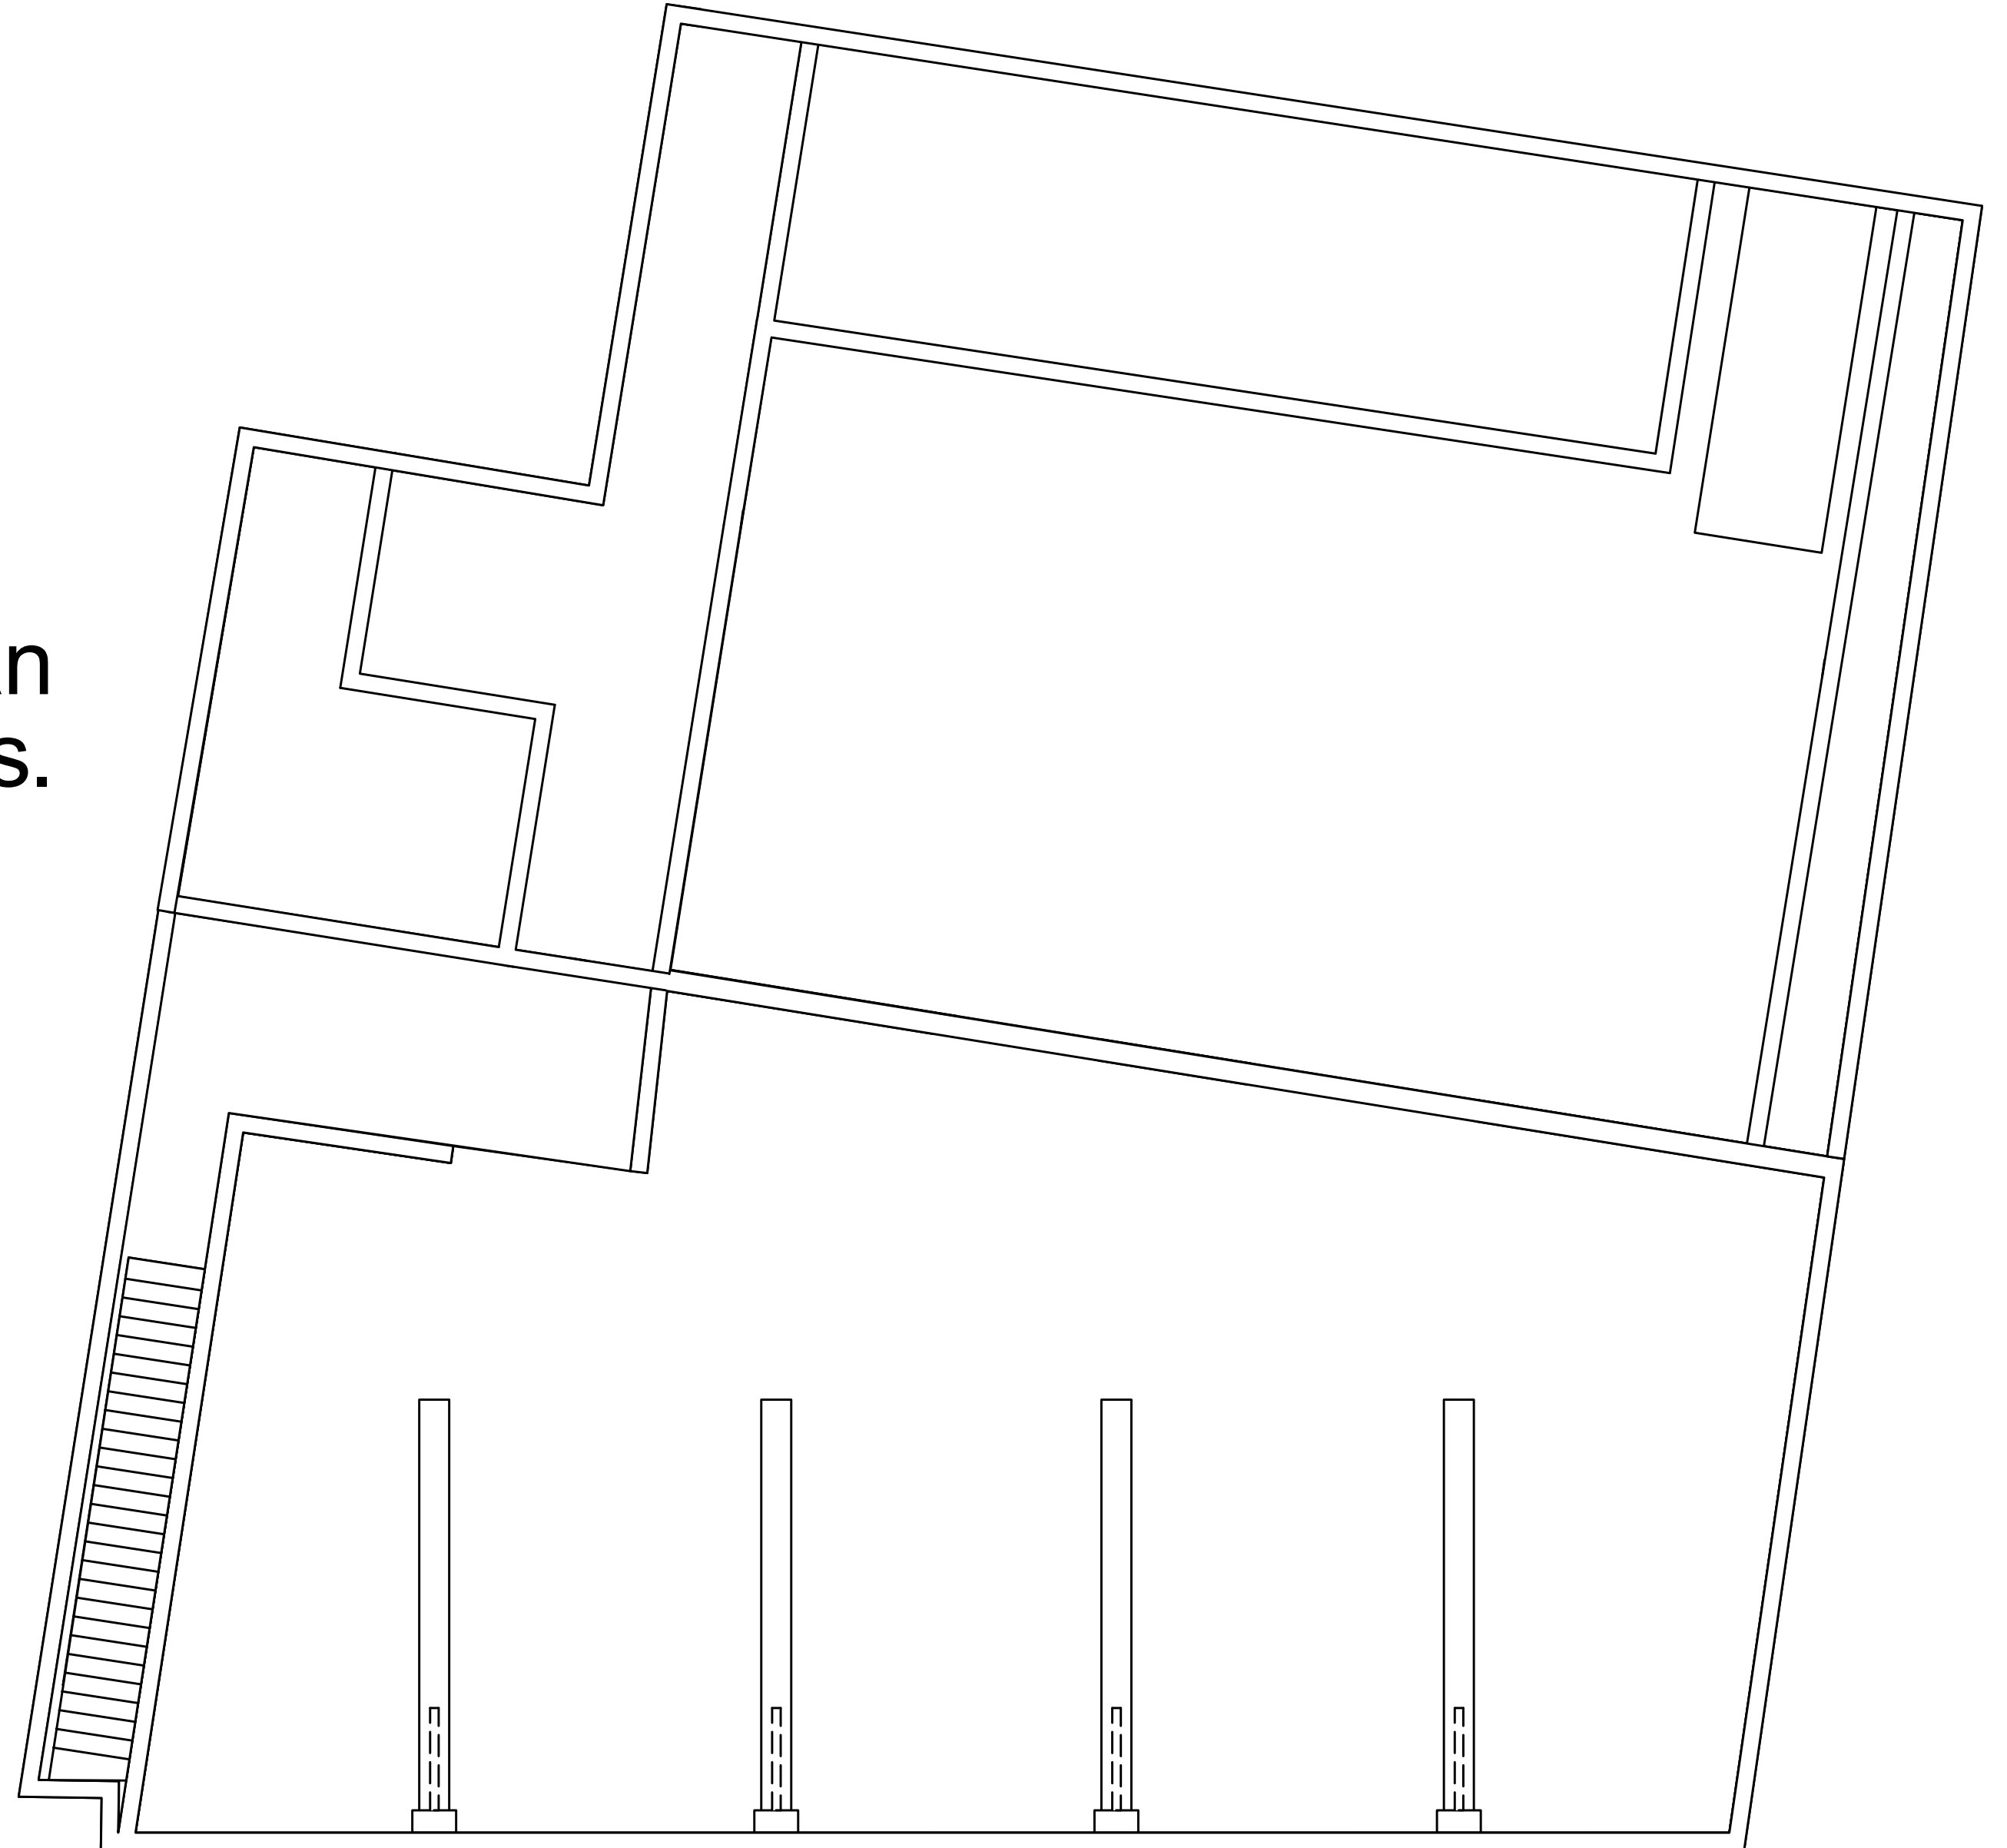

The Location

Nestled in the 11th arrondissement of Paris, Espace Parallele is a flexible 200m² showroom with an additional 80m² photo studio.

Its minimalist design, abundant natural light from a glass roof, and high ceilings create an ideal environment for a wide range of events.

Our Services

Event Production
& Management

Photo Shooting
& Ecommerce

Art Direction &
Growth Marketing

We offer a curated suite of services to support your brand and projects. We have a track record of successful collaborations, hosting pop-ups, cultural activations, artistic installations, and exclusive release events.

Events

Espace Parallèle offers a tailored environment for cultural, corporate, and creative gatherings. From intimate launches to large-scale activations, our team curates each experience with precision balancing atmosphere, design, and storytelling.

The space can be provided as a dry location or as a full-service production, including event management, light design, communication, bar and catering, and sound experience.

We host brand presentations, pop-ups, fashion-show, talks, and performances designed to spark connection within a modular, light-filled space.

Dining

Espace Parallèle collaborates with chefs, artists, and brands to create immersive dining experiences where food becomes part of the narrative. Each dinner is conceived as a stage where conviviality, aesthetics, and community meet.

The space can be offered as a dry location or as a full-service package, curating every step of the dining experience, from concept and production to lighting, sound, and menu design.
