We've created a range of **FREE online training videos** with supporting workbooks to help your staff keep up to date, some come with a certificate on completion. We'll even alert you when staff need to refresh a course they have previously taken.

Our most popular free online courses are the **Care Certificates**. It is expected that all those working as healthcare assistants and adult social care workers undertake this training as part of their induction programme. At Gompels we've made videos where our presenter, Amanda, guides you through each Workbook highlighting the important information needed to complete the Certificate. We have also developed our own **FREE care certificate answers**, which are available to download as a completed workbook!
