QUALIFICATION GUIDE

Qualifications in Digital Skills –
Entry Level 3, Level 1 and Level 2

OCN London Qualification Guide

OCNLR Entry Level Award in Digital Skills (Entry 3)
Qualification No: 603/2845/9

OCNLR Entry Level Certificate in Digital Skills (Entry 3)
Qualification No: 603/2846/0

OCNLR Entry Level Extended Certificate in Digital Skills (Entry 3)
Qualification No: 603/ 5361/2

OCNLR Level 1 Award in Digital Skills
Qualification No: 603/2847/2

OCNLR Level 1 Certificate in Digital Skills
Qualification No: 603/2848/4

OCNLR Level 2 Award in Digital Skills
Qualification No: 603/2951/8

OCNLR Level 2 Certificate in Digital Skills
Qualification No: 603/2952/X

OCN London aims to support learning and widening opportunities by recognising achievement through credit-based courses and qualifications, promoting high standards of excellence and inclusiveness.

We are proud of our long-term role and unique history in providing innovative learning solutions for a wide range of learners and particularly those who have not previously benefitted from education.

At the heart of what OCN London offers is:

- a commitment to inclusive credit-based learning;
- the creative use of credit with responsive, demand-led qualification development;
- high quality service and support;
- respect for and encouragement of diversity – in learners and learning approaches, partners and settings;
- the development of people, capacity and resources that will ensure effective business partnerships.

About This Guide

This qualification guide contains details of everything you need to know about the [OCNLR Qualifications in Digital Skills](#). It makes reference to the curriculum areas covered, identifies the learners for whom the qualifications have been developed and specifies the rules of combination for achievement of the qualifications. The guide also covers any important aspects of assessment and moderation that are particular to the qualifications. The guide should be used by all of those involved in the delivery and assessment of the qualifications.

The Curriculum and Relationship Development Manager (CRDM) for your Centre will provide support and advice on how to seek approval to offer these qualifications. Please contact the main switchboard for the name of your CRDM if you do not already know it. If you are not yet an OCN London Approved Centre but wish to use these qualifications, then please contact the administrative team at OCN London for details of the Centre Approval application process.

Foreword

“The evidence is clear that the UK faces a digital skills crisis. Although comparative nations are facing similar challenges, only urgent action from industry, schools and universities and from Government can prevent this skills crisis from damaging our productivity and economic competitiveness.”

The opening paragraph of the ‘Digital skills crisis’ publication, from the House of Commons ‘Science and Technology Committee’, is dramatic. The report was published on 13th June 2016, ten days before the UK’s Brexit vote that could well leave the UK economy even more prone to the potential crisis outlined and to the serious consequences if urgent action is not taken.

However, some actions have been taken already. Notably, in 2013, the government set out the national curriculum ‘Computing programmes of study’ for pupils of different ages, including – for Key Stage 1 – that Primary School pupils are taught to:

- Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions
- Create and debug simple programs
- Use logical reasoning to predict the behaviour of simple programs
- Use technology purposefully to create, organise, store, manipulate and retrieve digital content, etc.

Such requirements may sound ambitious for pupils of this age, but school teachers have responded with imaginative approaches that suggest this level of understanding is not only appropriate at an early stage, but that related learning can be fun, practical, and is likely to have a real and positive impact on the UK workforce in future. Familiarity with at least a basic level of ‘coding’ and related subjects will become mainstream for almost all pupils / future employees.

In contrast, existing IT qualifications for older pupils and adult learners now seem largely out of date, not as ambitious as they should be, and out of step with the new understanding of future employment requirements. Central to this is the awareness that familiarity with coding and automation will no longer be the domain of professional IT specialists but increasingly a basic requirement for productive employment in all professions and vocations. Accessing mobile apps for efficiency gains in your day-to-day workflow, collaborating on that key document with two other colleagues in ‘real time’, even though they are in different continents, automating that spreadsheet calculation for all 200 records, creating a button for users to click in the PDF form you are sending out, so it will be automatically emailed back to you and simultaneously record the survey responses in your own database... are all coding / automation basics most workers already need, or soon will need, themselves. The IT specialists will be working on higher level things in future and disappear from the general office space, just as typists disappeared when computers appeared and suddenly demanded that everyone type for themselves. Because everyone now needs to code, or soon will do. This qualification suite aims to help.

Oluwakemi Ajose, Lewisham Southwark College
David Broughton, ICT Subject Specialist/Moderator
Juli MacArthur, City of Westminster College
Neil Merrick, Kingston College.

Qualification Overview

The **OCNLR Qualifications in Digital Skills** have been developed specifically to enable learners to become familiar with the basics of key digital skills, needed now and in the near future. These skills are needed if the UK is to rise successfully to the projected Digital skills crisis.¹

These qualifications have been made as practical as possible, so that centres and tutors delivering them can use their imagination and creativity to really engage learners, even those with absolutely no previous understanding or experience of the subject. They focus on *practical* digital skills, using them to solve problems, improve personal efficiency, create and share content (collaboratively) and stay safe while doing so. The qualifications are written in a way that encourages ‘project based’ approaches wherever possible, so that learners can be assessed against the practical application of their new understanding and capabilities. Why require the learner to ‘describe how it works’, when they can *show* what they have made and that it works? The underpinning knowledge is often evident in the outcome – which is usually practical – so we have consciously tried to build assessment around practical outcomes in this way wherever possible.

The qualification suite presents different options for delivery. The qualifications can be delivered as ‘stand-alone’ substantial qualifications in Digital Skills, or added to an existing and different area of study, supporting the development of employment skills for learners pursuing widely different vocational ambitions.

It is hoped also that in doing so, this subject can be delivered in ways that especially appeal to a wide cross-section of learners and inspire more ‘digital champions’ for the future. Something as simple as amending a simple string of code to make a red square turn green can be the extraordinary first experience of coding that suddenly signifies to the learner the amazing possibilities ahead. We believe this subject, when delivered creatively, has a unique potential to really engage learners, perhaps engaging more women and BME learners, and also more disadvantaged learners, than has traditionally been the case, so that some and perhaps many, will find a new interest and a talent they were not previously aware of; a talent that the future UK economy will be crying out for.

The **OCNLR Qualifications in Digital Skills** are regulated by Ofqual, the qualifications regulator for England, and are registered on the Regulated Qualifications Framework (RQF).

¹ See Digital skills crisis – report, from the House of Commons ‘Science and Technology Committee’ – published 13th June 2016 <https://publications.parliament.uk/pa/cm201617/cmselect/cmsctech/270/270.pdf>

Qualification details

The [OCNLR Qualifications in Digital Skills](#) are available at Entry Level 3, Level 1 and Level 2.

Entry Level Award (Entry 3)

- Qualification Number: 603/2845/9
- Qualification credit value: 6
- Operational start date: 1st January 2018
- Review date: 31st December 2022
- Guided Learning Hours (GLH): 60
- Total Qualification Time (TQT): 60
- Assessment requirements: Internally assessed, internally and externally moderated.

Entry Level Certificate (Entry 3)

- Qualification Number: 603/2846/0
- Qualification credit value: 15
- Operational start date: 1st January 2018
- Review date: 31st December 2022
- Guided Learning Hours (GLH): 150
- Total Qualification Time (TQT): 150
- Assessment requirements: Internally assessed, internally and externally moderated.

Entry Level Extended Certificate (Entry 3)

- Qualification Number: 603/5361/2
- Qualification credit value: 29
- Operational start date: 1st January 2020
- Review date: 31st December 2024
- Guided Learning Hours (GLH): 290
- Total Qualification Time (TQT): 290
- Assessment requirements: Internally assessed, internally and externally moderated.

Level 1 Award

- Qualification Number: 603/2847/2
- Qualification credit value: 6
- Operational start date: 1st January 2018
- Review date: 31st December 2022
- Guided Learning Hours (GLH): 54
- Total Qualification Time (TQT): 60
- Assessment requirements: Internally assessed, internally and externally moderated.

Level 1 Certificate

- Qualification Number: 603/2848/4
- Qualification credit value: 15
- Operational start date: 1st January 2018
- Review date: 31st December 2022
- Guided Learning Hours (GLH): 135

- Total Qualification Time (TQT): 150
- Assessment requirements: Internally assessed, internally and externally moderated.

Level 2 Award

- Qualification Number: 603/2951/8
- Qualification credit value: 6
- Operational start date: 1st March 2018
- Review date: 31st December 2022
- Guided Learning Hours (GLH): 48
- Total Qualification Time (TQT): 60
- Assessment requirements: Internally assessed, internally and externally moderated.

Level 2 Certificate

- Qualification Number: 603/2952/X
- Qualification credit value: 15
- Operational start date: 1st March 2018
- Review date: 31st December 2022
- Guided Learning Hours (GLH): 120
- Total Qualification Time (TQT): 150
- Assessment requirements: Internally assessed, internally and externally moderated.

Purpose of the qualifications

The purpose of these qualifications is to provide learners with the essential awareness, understanding and practical ability relating to the digital skills likely to be increasingly needed as part of an employee's skill set in the future jobs market across different sectors. This supports the UK Government in meeting challenges relating to the projected 'digital skill crisis', and consequential levels of productivity in the future UK economy.

Who the qualifications are for

The [OCNLR Qualifications in Digital Skills](#) are suitable for learners who:

- are new to, or would like to improve their digital skills – particularly automated processes and coding
- may require a grounding in digital skills for further education or employment opportunities
- want to take on a qualification which emphasises the development of practical skills
- want to improve own efficiency in using IT applications and processes
- may require training in order to support Key Stages 1 to 4

Entry guidance

The qualifications are suitable for learners of all ages.

Progression and related qualifications

These qualifications can be studied alongside other subjects within a study programme or on a standalone basis.

Learners may progress to further studies in this or almost any subject area, as the content is relevant to practically all academic and vocational areas.

The skills developed using these qualifications will also serve a variety of vocational roles using IT systems.

Structure of the Qualification

Rules of combination for achievement

The [OCNLR Entry Level Award in Digital Skills \(Entry 3\)](#) comprises optional units only. Learners must achieve 6 credits in total.

- 6 credits from the optional units

The [OCNLR Entry Level Certificate in Digital Skills \(Entry 3\)](#) comprises mandatory and optional units. Learners must achieve 15 credits in total.

- 3 credits must be taken from the mandatory unit 'Digital Safety and Security'
- 12 credits from the optional units

The [OCNLR Entry Level Extended Certificate in Digital Skills \(Entry 3\)](#) comprises mandatory and optional units. Learners must achieve 29 credits in total.

- 3 credits must be taken from the mandatory unit 'Digital Safety and Security'
- 26 credits from the optional units

The [OCNLR Level 1 Award in Digital Skills](#) comprises optional units only. Learners must achieve 6 credits in total.

- 6 credits from the optional units

The [OCNLR Level 1 Certificate in Digital Skills](#) comprises mandatory and optional units. Learners must achieve 15 credits in total.

- 3 credits must be taken from the mandatory unit 'Digital Safety and Security'
- 12 credits from the optional units

The [OCNLR Level 2 Award in Digital Skills](#) comprises optional units only. Learners must achieve 6 credits in total.

- 6 credits from the optional units

The [OCNLR Level 2 Certificate in Digital Skills](#) comprises mandatory and optional units. Learners must achieve 15 credits in total.

- 3 credits must be taken from the mandatory unit 'Digital Safety and Security'
- 12 credits from the optional units

Entry Level Qualifications in Digital Skills (Entry 3)

Qualification units

Ofqual Unit Reference Number	OCNLR Unit Code	Unit Title	Level	Credit Value	GLH
Mandatory (for Entry Level Certificate (Entry 3))					
Y/616/8241	CN0/E3/LQ/011	Digital Safety and Security	E3	3	30
Optional					
T/617/9005	CN0/E3/LQ/019	Collaborative Working Using Digital Technology	E3	5	50

Assessment and Moderation

Assessment process

The assessment process for these qualifications is as follows:

- the learners are assessed through activities that are internally set by tutor/assessors;
- the activities must be designed to enable learners to meet the assessment criteria of the unit;
- learners' portfolios of assessed evidence must be internally moderated at the Centre;
- the portfolios of assessed evidence will be externally moderated by an OCN London External Moderator.

There is no additional external assessment for these qualifications.

Devising assessments

Each unit has a supplementary page with suggestions for the types of assessment activities that can be used to assess learners against the unit. Tutor/assessors should refer to this page before devising assessment tasks.

OCN London assessment guidance relevant to the units in the qualifications is in the **OCNLR Assessment Guidance and Ofqual Level Descriptors** section of this qualification guide. The guidance includes a general description of the activity and the type of evidence that is appropriate. The activity or activities set must enable the learners to meet the standards detailed in the assessment criteria. Please contact OCN London for further guidance on devising appropriate assessments.

Centre-devised assessments should be scrutinised by the Internal Moderator before use to ensure that they are fit for purpose. Centre-devised assessments will be scrutinised by the External Moderator to ensure reliability and validity of assessment.

Marking assessment activities

Each activity must be marked against the identified assessment criteria in the unit and judged to be either achieved or not achieved.

Tutor/assessors need to ensure that the work in a learner's portfolio is:

- authentic – it is the result of the learner's own performance or activity;
- sufficient – enabling the assessor to make a consistent and reliable judgement;
- adequate – appropriate to the level.

Where a series of activities are set, learners must demonstrate the achievement of the required standard identified in the assessment criteria in all activities. All the assessment criteria in a unit must be met before the unit is deemed achieved.

The unit achievement is not graded. Units are either achieved or not achieved.

Standardisation

Standardisation is a process that promotes consistency in the understanding and application of standards in relation to assessment. It:

- compares assessment judgements from different tutor/assessors
- promotes consistent judgements by different tutor/assessors;
- identifies good practice in assessment;
- promotes the sharing of good practice in assessment between Centre staff.

Standardisation events should be held periodically within Centres to ensure consistent and effective assessment practice. Standardisation events may also be held by OCN London and it is a requirement that each Centre offering units from the qualifications must contribute assessment materials and learners' evidence for standardisation, if requested.

OCN London will notify Centres of the required sample for standardisation purposes and assessment materials, learners' evidence and tutor/assessor feedback may be collected by External Moderators.

Learners with particular requirements

If learners have particular requirements the Centre should refer to the [Access to Fair Assessment Policy and Procedure](#) which gives clear guidance on the reasonable adjustments and arrangements that can be made to take account of disability or learning difficulty, without compromising the achievement of the assessment criteria.

Requirements for tutor/assessors

To be sufficiently competent

In addition to being qualified to make assessment decisions, each tutor/assessor must be capable of carrying out the full requirements within the competency of the units they are assessing. This competence should be maintained annually through clearly demonstrable continuing learning and professional development.

Expert witnesses can be used where they have suitable expertise for specialist areas. The use of expert witnesses should be determined and agreed by the tutor/assessor.

To be sufficiently knowledgeable

Each tutor/assessor should possess relevant knowledge and understanding of the subject and so be able to make robust and reliable assessment decisions in relation to the subject.

About OCN London

OCN London is a well-established national awarding organisation with over 25 years' experience in accrediting learning. We are a not-for-profit organisation with charitable status, dedicated to widening participation in learning and training, social inclusion and employability. We are also a market leader in the recognition of achievement through credit-based units and qualifications. Based in London, we work with Centres both across the UK and abroad, offering national qualifications and accredited programmes.

Our mission is to provide opportunities for people from across society to benefit from learning, particularly those who have not previously benefitted from education.

Why work with us?

- We are agile and responsive. This means you will get a personal service with direct access to a named contact and a quick turnaround.
- We pride ourselves on our close relationships with Centres. The people we work with see us as a trusted partner, not just a supplier.
- We want to help you get the best from your learners and employees.
- We have a reputation for high quality. The OCN London brand carries national recognition and kudos.
- We are flexible and recognise the importance of accommodating the needs of different learners and different learning styles.
- We offer exceptional value for money. Just ask the people we work with.
- We are committed to the belief that learning can change lives.

OCN London is regulated by Ofqual and the Quality Assurance Agency for Higher Education.

If you would like to deliver any of these qualifications please contact our Curriculum Development Team on **020 7689 5867**.

For further information call **020 7278 5511**. E: enquiries@ocnlondon.org.uk
