Qualification Overview

The **OCNLR Level 1 Award and Certificate in Skills for Professions in Business, Administration and Finance** have been developed to provide a flexible approach to study using a range of vocational units combined with units in learning skills, and 'green' units. The vocational units have been grouped into three areas: business and administration; marketing, sales and customer service; and legal, accounting and finance. This gives learners the opportunity of studying a range of interrelated topics in one place. The qualifications are suitable for use in a range of learning situations and lend themselves to the development of individualised learning programmes.

The qualifications have been designed to provide the study skills and introductory vocational knowledge to learners who wish to progress within business, administration and finance, but who may not yet be at a Level 2 standard. This may be because they have previously not achieved at Level 2, or because they have been out of education for some time. They also include a number of 'green' unit options designed to enhance awareness of 'green' issues.

The **OCNLR Level 1 Award in Skills for Professions in Business, Administration and Finance** is a qualification for learners wishing to explore vocational study alongside learning skills. The size of the qualification makes it ideal for learners who are not yet ready to commit to a larger qualification.

The **OCNLR Level 1 Certificate in Skills for Professions in Business, Administration and Finance** has been designed to fit with the requirements of the Department for Education's 16–19 Study Programme initiative as the substantial core qualification element for learners who are not yet at a Level 2 standard. This means that the size of the qualification allows for the other required elements of maths, English, work experience and enrichment activities to be taken simultaneously. For further information about the 16–19 Study Programmes, please see the DfE publication by clicking [here](#).

The qualifications are regulated by Ofqual, the qualifications regulator for England, and are registered on the Regulated Qualifications Framework (RQF).

Assessment and Moderation

Assessment process

The assessment process for these qualifications is as follows:

- the learners are assessed through activities that are internally set by tutor/assessors;
- the activities must be designed to enable learners to meet the assessment criteria of the unit;
- learners' portfolios of assessed evidence must be internally moderated at the Centre;
- the portfolios of assessed evidence will be externally moderated by an OCN London External Moderator.

There is no additional external assessment for these qualifications.

Devising assessments

Each unit has a supplementary page with suggestions for the types of assessment activities that can be used to assess learners against the unit. Tutor/assessors should refer to this page before devising assessment tasks.

OCN London assessment guidance relevant to the units in the qualifications is in the [OCNLR Assessment Guidance and Ofqual Level Descriptors](#) section of this qualification guide. The guidance includes a general description of the activity and the type of evidence that is appropriate. The activity or activities set must enable the learners to meet the standards detailed in the assessment criteria. Please contact OCN London for further guidance on devising appropriate assessments.

Centre-devised assessments should be scrutinised by the Internal Moderator before use to ensure that they are fit for purpose. Centre-devised assessments will be scrutinised by the External Moderator to ensure reliability and validity of assessment.

Marking assessment activities

Each activity must be marked against the identified assessment criteria in the unit and judged to be either achieved or not achieved.

Tutor/assessors need to ensure that the work in a learner's portfolio is:

- authentic – it is the result of the learner's own performance or activity;
- sufficient – enabling the tutor/assessor to make a consistent and reliable judgement;
- adequate – appropriate to the level.

Where a series of activities are set, learners must demonstrate the achievement of the required standard identified in the assessment criteria in all activities. All the assessment criteria in a unit must be met before the unit is deemed achieved.

The unit achievement is not graded. Units are either achieved or not achieved.

Standardisation

Standardisation is a process that promotes consistency in the understanding and application of standards in relation to assessment. It:

- compares assessment judgements from different tutor/assessors
- promotes consistent judgements by different tutor/assessors;
- identifies good practice in assessment;
- promotes the sharing of good practice in assessment between Centre staff.

Standardisation events should be held periodically within Centres to ensure consistent and effective assessment practice. Standardisation events may also be held by OCN London and it is a requirement that each Centre offering units from the qualification must contribute assessment materials and learners' evidence for standardisation, if requested.

OCN London will notify Centres of the required sample for standardisation purposes and assessment materials, learners' evidence and tutor/assessor feedback may be collected by External Moderators.

Learners with particular requirements

If learners have particular requirements the Centre should refer to the [Access to Fair Assessment Policy and Procedure](#) which gives clear guidance on the reasonable adjustments and arrangements that can be made to take account of disability or learning difficulty, without compromising the achievement of the assessment criteria.

Requirements for tutor/assessors

To be sufficiently competent

In addition to being qualified to make assessment decisions, each tutor/assessor must be capable of carrying out the full requirements within the competency of the units they are assessing. This competence should be maintained annually through clearly demonstrable continuing learning and professional development.

Expert witnesses can be used where they have suitable expertise for specialist areas. The use of expert witnesses should be determined and agreed by the tutor/assessor.

To be sufficiently knowledgeable

Each tutor/assessor should possess relevant knowledge and understanding of the subject and so be able to make robust and reliable assessment decisions in relation to the subject.
