

Access to HE Diploma Specification

**Access to HE Diploma
(Medicine)**

OCN London aims to support learning and widening opportunities by recognising achievement through credit-based courses and qualifications, promoting high standards of excellence and inclusiveness. We are proud of our long-term role and unique history in providing innovative learning solutions for a wide range of learners and particularly those who have not previously benefitted from education.

At the heart of what OCN London offers is:

- a commitment to inclusive credit-based learning;
- the creative use of credit with responsive, demand-led qualification development;
- high quality service and support;
- respect for and encouragement of diversity – in learners and learning approaches, partners and settings;
- the development of people, capacity and resources that will ensure effective business partnerships.

General information

This Diploma specification provides an overview of the qualification structure for the named Access to HE Diploma. It sets out the rules of combination and the minimum requirements for delivery specific to the Diploma title. The specification should be used by staff when applying for course recognition to deliver a Diploma and also by those involved in the delivery and assessment of the Diploma title.

The Diploma specification should be used in conjunction with OCN London's [Access to HE Guide](#) which contains a comprehensive guide QAA Access to HE qualification framework and how this is operated on OCN London Access to HE Diplomas, from learner registration to certification.

The OCN London website also contains a wide range of resources and guidance on specific topics to help OCN London centres deliver the Access to HE Diploma.

If you are not yet an OCN London Approved Centre but wish to deliver this Access to HE Diploma, please contact us on enquiries@ocnlondon.org.uk for details of the Centre Approval application process.

If you currently offer Access to HE Diplomas with OCN London, please contact the Access to HE Team for information on how to apply for course recognition.

Diploma overview

The Level 3 Access to HE Diploma is a nationally recognised qualification which is designed to provide preparation for study in higher education (HE) in the UK for adults returning to education.

Individual Diploma titles are validated and awarded by Access Validating Agencies (AVAs), according to [Access to HE Diploma Specification and Grading Scheme](#) set by the Quality Assurance Agency for Higher Education (QAA).

In order to gain the Access to HE Diploma, learners must achieve a total of 60 credits. Of these 60 credits, 45 credits must be achieved at Level 3 from graded subject specific units. Graded units can be awarded at Pass, Merit or Distinction. The remaining 15 credits must be achieved at Level 2 or Level 3 from study skills units which are ungraded.

Within the 60 credits, learners must achieve a minimum of one unit of either 6 or 9 credits. A maximum of 30 credits can be made up of 6 or 9 credit units.

Diploma details

Diploma title: Access to HE Diploma (Medicine)
Learning aim code: 40012487
Validation start date: 1 August 2021
Validation end date: 31 July 2026
SSA sector code:
Tier 1: 1 – Health, Public Services and Care
Tier 2: 1.1 – Medicine and Dentistry

QAA Subject Descriptor for Medicine

The Access to HE Diploma (Medicine) meets the requirements of the **QAA approved Subject Descriptor for Medicine**. The subject descriptor has been approved by QAA and was developed in consultation with The Medical Schools Council (MSC) and other HE and FE specialists.

The purpose of the subject descriptor is to define the minimum requirement of content for a Diploma that is designed and publicly claims to provide the preparation needed for progression to undergraduate study in Medicine.

The aim of the subject descriptor is to bring greater standardisation to Diplomas titled Access to HE Diploma (Medicine). This will allow the medical schools currently accepting Access to HE learners for direct entry to have greater confidence that an unfamiliar Diploma will be very similar in selection, content and assessment to those that they currently accept. It may also encourage those medical schools not currently accepting Access to HE learners to review their admissions policies based on a clear definition of an Access to HE Diploma (Medicine) learner.

For further information, please read the [Access to HE Diploma Subject Descriptor for Medicine](#) document.

Diploma aims

The Access to HE Diploma (Medicine) provides adult learners with a structured, supportive, and integrated programme of study. Learners will gain the knowledge, skills, confidence, and awareness necessary to succeed in undergraduate study within the intended progression routes of this Diploma. The Diploma offers a balance of essential academic skills and subject-specific knowledge, ensuring that learners are well-prepared for the intellectual and practical demands of undergraduate study in Medicine.

Its primary aims are to:

- to provide HE progression opportunities for adults who, because of social, educational or individual circumstances, do not have the necessary qualifications
- introduce learners to fundamental concepts, methods, and key areas of knowledge within core disciplines, offering a structured and stimulating framework for intellectual growth and interdisciplinary connections
- support learners in developing essential academic skills and independent learning habits needed for success in undergraduate study
- establish a positive and supportive learning environment within which learners can build their confidence through successful learning and shared experiences
- offer personal and educational support to help learners pursue their goals within the framework of the Diploma.

Target learners

- Adults who, because of social, educational or individual circumstances, were unable to participate in or benefit from initial education.
- Adults from groups that are under-represented in higher education.
- Adults seeking a career change due to unemployment or limited opportunities in their previous field, with a demonstrable interest in entering a Medical profession.

Progression

Potential HE progression routes

Following successful completion of this Access to HE Diploma, learners may progress onto the following areas of degree study: Medicine and a range of combined and related degrees.

The Access to HE Diploma does not guarantee entry to UK Higher Education Institutions.

Potential career opportunities

Potential career paths following Higher Education study in this subject area may include Medicine and allied medical professions.

Progression agreements

OCN London works with local universities to develop progression agreements that benefit all its centres and learners. The following agreements are in place:

- Goldsmiths, University of London (Progression agreement)
- St Mary's University, Twickenham (Progression agreement)
- University of East London (Partnership agreement)

Further information about each agreement can be found [here](#) on the OCN London website

Entry guidance

There are no centrally specified formal requirements for qualifications on entry to the Access to HE Diploma; however, learners progressing onto HE Medicine courses will likely need to hold at least 5 GCSEs at grade 9-5/4 (A*-C) including English, Maths and Science, as these qualifications usually form part of the entry requirements for the degree courses that learners progress to. Learners should also be strongly advised to contact HE institutions to confirm specific entry requirements onto degree courses.

The following information offers guidance on entry requirements to Medical schools. However, this is for guidance purposes only and should be confirmed with Medical Schools directly.

- Medical schools set their own entry requirements for Medicine degree programmes; this will include specific grade requirements for learners studying an Access to HE Diploma (Medicine). These requirements may be converted into [UCAS Tariff Points](#). These entry requirements are set to ensure learners have the right skills and knowledge to successfully complete the course. The Medical Schools Council publishes the [entry requirements](#) for all UK medical schools.
- Medical schools are likely to require all applicants to take an additional aptitude test: either the University Clinical Aptitude Test (UCAT) or the Biomedical Admissions Test (BMAT), and the latest dates for taking these will be early in the academic year; scores for these tests might be a significant factor in selection for interview.
- Grades at GCSE or equivalent are usually considered as part of the application for medicine, but medical schools place varying emphasis on them.
- Applicants to medical school will be required to show an understanding of what a career in medicine involves. To assess this, many medical schools include work experience among their criteria for application.
- Medical schools will look for certain skills and attributes which they believe make an ideal candidate - <https://www.medschools.ac.uk/studying-medicine>.
- Admissions criteria for medical schools can change every year. Providers should check the websites of the medical schools on a regular basis.
- All medical schools will interview as part of their selection process. Access to HE learners should receive advice on interview preparation early in the programme.

- There may be health, financial, or Disclosure and Barring Service (DBS) or Protecting Vulnerable Groups (PVG) checks, which check if you have a criminal record. This information will be set out in the course details

It is the responsibility of the applicant to check for any other requirements, beyond qualifications that may be required by a medical school.

Learners must have a UK, including the Channel Islands and Isle of Man, address (including BFO) to be registered on an Access to HE Diploma.

Learner recruitment

It is important that learners receive clear information, advice, and guidance on entry to the course to ensure transparent expectations and alignment to their needs. As part of the application process, learners are expected to complete a diagnostic assessment to determine their potential to achieve the qualification. If the outcome of the assessment identifies support needs, appropriate assistance should be made available where possible.

Centres should make professional judgements to ensure learners are not set up to fail. Consideration should be given to learner's diverse backgrounds and criteria set should recognise that learners can demonstrate their potential to succeed in a variety of ways.

Equality, Diversity and Inclusion

It is expected that centres comply to the intention of OCN London's Equality and Diversity policy. In particular, in that there should be no discrimination on the grounds of gender, marital status, colour, race, disability, age, ethnic or national origin, religion, sexual orientation or political opinion. OCN London expects that centres will also ensure that no discrimination occurs in relation to all of the protected characteristics as defined in the Equality Act 2010.

Guided learning hours

The Access to HE Diploma represents 600 notional Guided Learning Hours (GLH) with courses generally delivered in 450 GLH. This may vary between centres and may depend on whether the course is being delivered through blended learning. It is expected a centre delivering the course will clearly outline the intended delivery in terms of total hours and how this is broken down weekly over the period of study.

Diploma resources

The minimum required resources for this Diploma include:

- A science laboratory for the delivery of the practical elements of the science units as appropriate.
- Access to IT facilities with specialist software as appropriate.
- Access to learning resources and online facilities.
- Access to VLE or other system, such as Microsoft Teams, Google Classroom.
- Access to resources for specialist learner support and reasonable adjustments.
- The same level of facilities and resources should be available at each site where the Diploma is delivered.

Staffing requirements

- Staff delivering, assessing or internally moderating on the Access to HE course must have the professional competence and level of subject expertise necessary to deliver and assess the units available on the Diploma. It is expected that the tutor will be qualified to the level above (i.e. Level 4) in the subject area of the unit they are teaching e.g. a tutor with a Social Science degree may be able to teach both Psychology and Sociology.
- Staff should have or be working towards a teaching qualification.
- Staff should have knowledge and understanding of the Access to HE Diploma, including QAA regulations, AVA assessment regulations, the QAA Grading Scheme and the Rules of Combination.
- New staff should be inducted to ensure that they have sufficient information to deliver, assess or internally moderate on the Diploma competently.
- It is desirable that teachers have personal practice experience.

Assessment

Grading Standards

The graded units in an Access to HE Diploma are graded using a scheme which has been designed to accommodate the flexibility of the qualification (it can be applied to all Access to HE Diploma graded units, whatever their subject or structure). A grade of Pass, Merit or Distinction is awarded for every graded Level 3 unit that a learner completes successfully as part of an Access to HE Diploma. Grades can only be awarded for graded units which are part of the Diploma (and conform to the Rules of Combination). There is no overall grade for the Diploma.

There are 3 grading standards which are applied to **all** graded units:

GS1: Knowledge and Understanding

GS2: Subject Specific Skills

GS3: Transferable Skills

Each grading standard comprises of a set of components and sub-components which describe types of performance associated with the standard. For each component, there are parallel statements at merit and distinction, which describe increasingly demanding standards of achievement. The most appropriate sub-components of the standards are selected when grading the unit.

For Grading Standard 3: Transferable Skills, all three of the components (a, b and c) must be used at least once across the Diploma.

For further information can be found [here](#) on the OCN London website.

Assessment mechanisms

The Access to HE Diploma assessment mechanism incorporates:

- Assessment tasks which are designed and set by the Centre
- Internal assessment of learner work
- Internal and external moderation of assessment.

There are no additional external assessments for this Diploma.

QAA subject descriptor recommended methods of assessment

QAA sought guidance from The Medical Schools Council (MSC) with regards to assessment of this Diploma. Feedback from Medical Schools suggested a preference for:

- Formal examinations that are comparable in format to first/second year undergraduate and A level in style, to include multiple-choice [single best answer and possibly extended matching] questions
- Access to HE learners to be subject to end of unit exams as well as end of year exams, the latter to demonstrate retention of information.

The subject descriptor does not require for Access to HE Diploma (Medicine) learners to sit end of year examinations. However, Access to HE learners should have the opportunity to experience and demonstrate achievement in assessments to fully support their transition into higher education which is varied and inclusive. This must include the following forms of assessment:

- a substantial number of time constrained, unseen assessments or examinations, ideally to include at least one instance of single best answer multiple choice questions
- at least one each of the following
 - essay prepared using relevant academic conventions
 - report using practical, research, mathematical, statistical and writing skills as appropriate
 - oral presentation to include visual aids and appropriate resources
 - reflective accounts

Access to HE providers should identify the units or clusters of units within the course that present the most appropriate opportunities to use these forms as a vehicle for assessment and decide how best to sequence them to create an effective assessment strategy for the Diploma.

It is expected that selected assessment methods will be discussed with the Centre Moderator and OCN London before delivery commences.

This is not an exhaustive list, and other methods could be selected with agreement from either OCN London or the Centre Moderator.

Rules of Combination

To be awarded the Access to Higher Education Diploma (Medicine) learners must achieve a total of 60 credits comprising of:

Credits required from graded academic subject content units at Level 3	45
Credits required from ungraded units at Level 3 or Level 2	15
Total credits required	60

Access to HE Diplomas with the specific title of **Access to HE Diploma (Medicine)** must meet the requirements of the [QAA Access to HE Diploma Subject Descriptor for Medicine](#).

To meet the requirements as set out in the subject descriptor, the following criteria must be met.

Learners must also meet the following Rules of Combination:

Rule: Units in	Status	Mandatory Credits (see below)	From Optional Credits	Total Credits
Study Skills	Ungraded	3 @ L3	6 @ L3	9
Professional Behaviours	Ungraded	3 @ L3	N/A	3
Use and Comprehension of Numerical Data	Ungraded	3 @ L3	N/A	3
Human Biology	Graded	15 @ L3	N/A	15
Chemistry	Graded	15 @ L3	N/A	15
Other Science/Mathematics	Graded	9 @ L3	N/A	9
Other Subject Specific	Graded	N/A	6 @ L3	6
Total		48	12	60

In addition:

A learner must achieve a **minimum** of one 6 or 9 credit unit to achieve the Diploma.

A learner's programme of study can only include a **maximum of 30 credits** made up from 6 or 9 credit units.

Approved unit list

Mandatory units

Study Skills (ungraded)

Learners must complete **3 credits** from the module below.

Unit ID	Unit Name	Level	Credits
CBA794	Reading and Comprehension of Scientific Writing	L3	3

Professional Behaviours (ungraded)

Learners must complete **3 credits** from the module below.

Unit ID	Unit Name	Level	Credits
CBB414	Professional Behaviours for Medical Practitioners	L3	3

Use and Comprehension of Numerical Data (ungraded)

Learners must complete **3 credits** from the module below.

Unit ID	Unit Name	Level	Credits
CBB428	Use and Comprehension of Numerical Data	L3	3

Human Biology (graded)

Learners must complete **15 credits** from the module below.

Unit ID	Unit Name	Level	Credits
CBB424	Fundamental Concepts in Cellular Biology	L3	3
CBB425	Principles in Human Digestion and Nutrition	L3	3
CBB426	The Circulatory and Respiratory Systems	L3	3
CBB427	The Role of the Nervous and Endocrine Systems in Control	L3	6

Chemistry (graded)

Learners must complete **15 credits** from the module below.

Unit ID	Unit Name	Level	Credits
CBB422	Concepts in Physical Chemistry	L3	3

CBB423	Fundamental Principles in Chemistry	L3	6
CBB586	The Chemistry of Organic Compounds	L3	6

Other Science / Mathematics (graded)

Learners must complete **9 credits** from the modules below.

Physics			
Unit ID	Unit Name	Level	Credits
CBB564	Medical Imaging	L3	3
CBB569	Motion, Energy and Forces	L3	3
CBB570	Properties of Matter	L3	3
CBB571	Thermal Properties of Matter	L3	3
CBB572	Waves	L3	3

Mathematics			
Unit ID	Unit Name	Level	Credits
CBB844	Algebraic Functions and Graphs	L3	3
CBB847	Handling Scientific Data	L3	3

Remaining Credits

Study skills (ungraded)

Learners must complete **6 credits** from the module below.

Unit ID	Unit Name	Level	Credits
CBA847	Essay Writing	L3	3
CBA785	Examination Skills: Preparing for and Succeeding in an Examination	L3	3
CBB804	Report Writing	L3	3
CBB805	Speaking and Listening Skills	L3	3

Other Subject specific (graded)

Learners must complete **6 credits** from the subject specific modules below.

Human Biology			
Unit ID	Unit Name	Level	Credits
<u>CBB560</u>	The Musculoskeletal System	L3	3
<u>CBB561</u>	The Reproductive System	L3	3

Chemistry			
Unit ID	Unit Name	Level	Credits
<u>CBB574</u>	Action and Uses of some Common Types of Drugs	L3	6
<u>CBB582</u>	Microbiology and Biotechnology	L3	6
<u>CBB592</u>	The Chemistry of Aqueous Solutions	L3	3

Practical Work			
Unit ID	Unit Name	Level	Credits
<u>CBA774</u>	Planning and Conducting a Scientific Investigation	L3	3

Additional information

Recognition of Prior Learning (RPL)

Overall, the total proportion of credits awarded or exempted through either credit transfer and/or recognition of prior learning must not exceed 30 credits (that is 50 per cent of the credits required for the achievement of the Diploma).

Barred combinations of units

If the content between units overlaps by more than 25% of the learning outcomes, this would result in a barred combination of units.

There are no barred combinations of units in this Diploma.

Guidance and support materials

OCN London devised assignment briefs are available for the following units:

Study skills

- Essay Writing
- Examination Skills: Preparing for and Succeeding in an Examination
- Reading and Comprehension of Scientific Writing
- Report Writing
- Speaking and Listening Skills

Subject specific units

- Medical Imaging
- Motion, Energy and Forces
- The Chemistry of Organic Compounds
- The Reproductive System
- Thermal Properties of Matter
- Waves

Online learning materials

The following online support materials are available:

- Essay Writing
- Extended Project
- Note-taking and Note-making
- Preparation for Higher Education
- Reading and Comprehension of Texts
- Sourcing and Reading Information
- Writing Standard English
- Referencing and Plagiarism (short course)

These online learning materials can be used as part of your teaching or an induction to the course. It is expected that the learners will still receive teaching on these topics and assignments must be set for them by their tutor and assessed by the centre. The courses can be accessed via the OCN London website or incorporated into your own VLE or online delivery systems. If you have any queries, please contact Sarah Francis, Access to HE Standards Coordinator at sarah@ocnlondon.org.uk.

All OCN London devised assignment briefs can be found in the [Access Centre Area](#) on the OCN London website (login required).

Further resources and guidance including the Access to HE Diploma guide, tutor guidance documents, marketing materials, forms, templates and checklists can be found in the above area of the website (login may be required).
