TRIBU

*A perfect balance of quiet luxury
and understated elegance*

A journey of creativity across continents, TRIBU celebrates deeply authentic beauty as Omexco explores the art of weaving with paper.

TRIBU is a contemporary collection of woven wallcoverings that honours ancestral weaving traditions from Asia to Africa. Satisfy your desire for multicultural modernism and timeless design.

Beautifully simple, these serene subtle plains are highlighted by a stunning irregular stripe and strikingly daring prints. We reinterpret the universal Ikat motif and the bold Kuba Shoowa patterns from the heart of Africa.

Drawing on ancient Japanese techniques, our paper is dyed or printed, cut into ribbons, twisted into threads and finally woven into refined textures. A precious marquetry of handwoven raffia complements these tactile wallcoverings.

The TRIBU collection exudes sophisticated simplicity. A perfect balance of quiet luxury and understated elegance.
