SanBabila

SanBabila is Italian design: elegant forms, polished and refined details, materials and sophisticated craftsmanship.

It is a seating system for auditoriums, theatres and concert halls, to be used individually or as part of multiple compositions, that offers a modern twist on the combination of industrial culture and artisan knowhow that is Poltrona Frau's hallmark in this sector.

SanBabila brings together a clean and rigorous design with sophisticated proportions and top-notch construction excellence for an international seat designed for the large spaces of new contemporary architectures.

The maniacal control of the curves in the various components and the care that has gone into the stitching result in an original and timeless take on this traditional form of seat where proportions, comfort and posture are key aspects.

In Pelle Frau leather or fabric, in the infinite range of Poltrona Frau colours, SanBabila is a seating system that designers can easily interpret and customise to enhance the aesthetic qualities and performances of their architectures.
