USING THE SMARTMIRROR

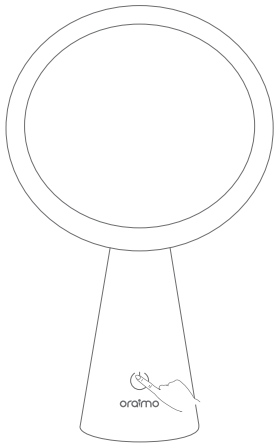

1. Mode Switch

- 1

**ON**  
Press the button, the light of the SmartMirror will turn on.
- 2

**Custom Brightness**  
Long press the button, and get customized brightness.
- 3

**OFF**  
Press the button again, the light of the SmartMirror will turn off.

This is a makeup mirror with the function of lighting, and 36 LED lamp beads are inserted inside. You can turn on/off the light by touching the button on the mirror body. The brightness of SmartMirror can be customized by long pressing the button, so SmartMirror can suit most of different lighting conditions. Besides, the light of SmartMirror is very soft and not harsh.

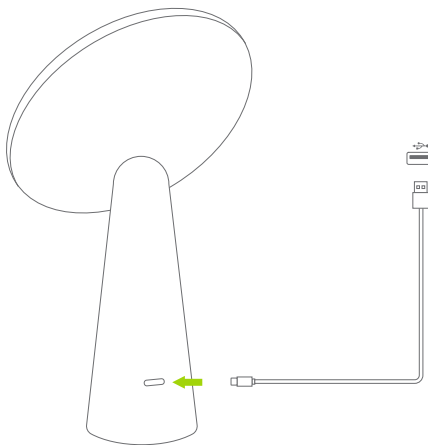

2. Placement and Lift Up

You can use SmartMirror firmly on the table, because it has a strong suction cup, and it takes about 20N to lift the mirror.

3. Adjustable Angle

You can adjust the angle of SmartMirror up and down to get a most comfortable position while looking into the mirror. The maximum adjustable angle is about 40°.

CHARGING THE MAKEUP MIRROR

●	Being charged
●	Fully charged

IMPORTANT SAFETY INSTRUCTIONS

1. Please keep this product away from children.
2. The installation position of the product should be away from a heat source such as a radiator, air conditioning outlet, etc., and avoid direct sunlight.
3. This product is not waterproof, please avoid using in a wet environment.
4. Please use the original charging cable to charge.
5. Please do not have a shield in front of the sensor to avoid affecting the sensor function.
