WELCOME GUIDE

Watch & Max | OSW-800IN

* For safety issues, the product remains at low capacity during shipping.
Please fully charge the product before initial use!

PRODUCT OVERVIEW

The diagram illustrates the components of the Oramo Health app and its hardware. At the top left, a smartwatch is shown with labels for 'Full Touchscreen' and 'Home Button'. To its right is a 'Charging Cable' with a USB-A connector and a magnetic charging tip. Further right is a 'Welcome Guide' icon. Below these, a 'Watch Strap' is shown. In the center is a 'Charging Port' on the back of the watch. To the right of the charging port is a 'Heart Rate Sensor'. At the bottom, a large, detailed view of the smartwatch is shown, displaying a digital heart rate reading of '00:00:00:00:00:00:00:00' on its screen.

SETTING UP YOUR SMART WATCH

For your best experience, we recommend using the latest oromo health app for iOS and Android.

Pair With Your Phone

1. Get ready with the oromo health app, scan the QR code on your watch or find the oromo health app in one of these locations, depending on your device:

 The App Store for iPhone.

 The Google Play Store for Android phone.

2. When the app is installed, open it and follow the instructions that help you create your account, or login to your existing account.
3. Your account asks for information such as height, weight, and gender to make various calculations and tailor your experience using the app. You can modify your information in oromo health – Account – User
4. Long press the Home Button of the watch to turn it on, follow the onscreen instructions to set up the language, and get ready pairing with the phone.

EN 01

Scan the QR code to pair:

Oranmo Health app interface showing QR code and 'Pair via QR code' option.

Smartwatch screen showing 'Pair via QR code' option selected.

Smartphone screen showing 'Connect with QR code' option selected.

Use oranmo health app to scan the QR code on the watch:

Smartphone screen showing QR code and 'Scan the QR code to pair:'. Smartwatch screen showing 'Pair via QR code' option selected.

Smartphone screen showing 'Connect with QR code' option selected.

If you can't pair successfully, try the following methods:

1. Make sure the BT permission is allowed for the app;
2. Make sure the watch is not connected with another phone;
3. Try turning off and on again the BT switch on your phone;
4. Try none of these work, try rebooting your phone and the watch, and repeat the above steps.

After pairing with your phone, read through this guide to explore the various functions!

EN 02

BT CALLING

Before pairing your phone and the watch for the BT Calling function, make sure the BT call on the watch is switched on.

Press the home button to enter the main menu. Tap the phone icon on switch on the BT for the call on the watch.

1. Home screen: Tap the 'Call BT' icon.

2. 'About' screen: Tap the 'Switch' button.

3. 'About' screen: Tap the 'Switch' button. The status changes to 'BT'.

Some models of phones need to pair two devices with the same name "Oranimo Watch 6 Max": one BT device for health data synchronization, the other to be paired for activating the BT calling function.

GETTING TO KNOW YOUR SMART WATCH

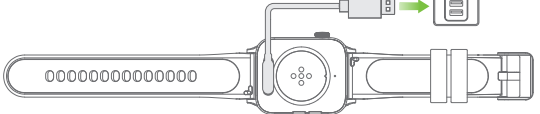

Wrist Placement

For all-day wear, your watch should usually rest a finger's width below your wrist bone and lay flat, as you would normally wear a watch.

Charge Your Watch

Connect the metal contacts on the charging dock to those on the back of the device, then put them on a flat surface.

Connect the charging cable to a power supply, the device's screen will light up and display the battery level.

✓ If the smartwatch was in contact with water, please use a clean, dry towel or a microfiber cloth to gently pat it dry, and wipe the metal contacts before charging.

EN 04

Power On/Off

- When the watch is powered off, please connect it to the power or press the Home Button for 3 seconds to turn it on.
- Wake up the watch, press the Home Button for 3 seconds to select the Shutdown option, then the watch will turn off.
- When the watch is powered off, please connect it to the power or press the Home Button for 3 seconds to turn it on.
- If there is a problem with the watch, please connect the power supply and press and hold the Home Button for 10 seconds to force restart the watch.

Wake Up the Watch

Method 1: Press the Home button to wake up the display.

Method 2: Turn your wrist. This "Raise to Wake" function is active by default. You can turn it on/off by tapping the Status to Wake icon.

Explore Functions with Full-Screen Gesture

Swipe left/right to go down to discover more of your watch.

Customize a Custom AI Dial

1. Open the cramo health app and select "Dial Center". Picoated to the "Create dial" option.
2. Choose your preferred AI technology to produce a unique watch face design.
3. Ensure your watch is charged and then applying the new watch face theme. The creation time may vary based on your internet connection speed.

TROUBLESHOOTING & FAQ

Can't connect with BT.

- 1. Make sure that your device supports BT Version 5.3 and that your phone system is iOS 12.0 and above or Android 7.0 and above.
- 2. Make sure that you've set up the BT permission for the cramo health app.
- 3. Check if the watch is connected to other phones. If yes, please disconnect and restart.
- 4. Disconnect the BT on your phone and reconnect after 20 seconds;
- 5. Restart the watch and reconnect after 20 seconds.

Can't find the watch in BT.

- 1. Make sure that your phone and the cramo health app are enabled (BT is working) and the device has sufficient power;
- 2. Keep the device screen activated and place it close to your phone;
- 3. Make sure that the watch is not connected to another phone;
- 4. Disconnect the BT on your phone and reconnect after 20 seconds.
- 5. If you still cannot find it, please turn off your phone's BT function and reconnect after 20 seconds.

Can't receive heart rate or blood oxygen.

- 1. Make sure that the optical monitoring sensor is in direct contact with your skin.

Can't monitor heart rate or blood oxygen.

For Android users, please make sure that the device is connected to cramo health app. Set up notifications permission for the cramo health app in the phone system as well as in cramo health app settings. Add the cramo health app to the phone home screen to monitor heart rate and blood oxygen functions.

For iPhone users, please make sure that the device is connected to your phone. Reboot your phone and try to reconnect.

EN 05

Is the product waterproof?

This product has an IP68 water-resistant rating. You can wear it while washing hands or washing the car. However, please avoid wearing it while showering or taking showers.

Do I need to connect BT all the time? Will my health and sleep data stored if not connected to the phone?

The data will be kept on the watch for 2 days. When reconnected to the phone, your health and sleep data will be synced automatically. Please synchronize data in time to get maximized utility.

Scannez le code QR pour l'appairer :

Utilisez l'application **Weario health** pour scanner le code QR sur la montre :

1. Assurez-vous que l'utilisation BT est autorisée pour l'application ;
2. Assurez-vous que la montre n'est pas connectée à un autre téléphone ;
3. Essayez d'étendre et de rallumer le commutateur BT de votre téléphone ;
4. Si aucune de ces méthodes ne fonctionne, essayez de redémarrer votre téléphone et votre montre, puis répétez les étapes ci-dessus.

Après l'appairage avec votre téléphone, lisez ce guide pour découvrir les différentes fonctions !

APPRETEL BT

Avant d'associer votre téléphone et la montre pour la fonction d'appel BT, assurez-vous que la fonction d'appel BT de la montre est activée :

Appuyez sur le bouton d'appel dans le cadran principal, touchez l'élément de menu Téléphone pour activer la fonction BT pour l'accès sur la montre.

Certains modèles de téléphones nécessitent de coupler deux appareils du même nom « oraimo Watch & Max » : un appareil BT pour la synchronisation des données de santé, l'autre à coupler pour activer la fonction d'appel BT.

APPRENDRE À CONNAÎTRE VOTRE MONTRE INTELLIGENTE

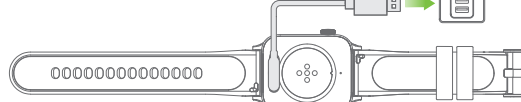

Pose sur le poignet

Pour une utilisation tout au long de la journée, votre montre doit généralement être portée à une distance d'un doigt de l'os du poignet et être posée à plat, comme vous le feriez normalement.

Recharge de votre montre

Reliez les contacts métalliques de la station de charge à ceux situés à l'arrière de l'appareil, puis posez-les sur une surface plane.

Connectez la station de charge à une source d'alimentation, l'écran de l'appareil s'allume et affiche le niveau de la batterie.

Si la montre a été en contact avec l'eau, veuillez utiliser une serviette propre et sèche ou un chiffon en microfibre pour la sécher doucement et essuyer les contacts métalliques avant de la charger.

FR 13

[illegible]

Ce produit est-il étanche ?
Ce produit est doté d'un indice de résistance à l'eau IP68. Vous pouvez le porter lorsque vous devez lever les mains ou lorsque vous devez le porter. Cependant, évitez de le porter lorsque vous faites de la plongée ou que vous prenez une douche.

Faut-il toujours rester connecté à BT ? Mes données de santé et de sommeil seront-elles conservées si mon téléphone n'est pas connecté ?
Même lorsque vous n'êtes pas connecté à BT, la montre continue d'enregistrer vos données de santé et de sommeil. Les données de santé et de sommeil sont automatiquement synchronisées. Veuillez synchroniser les données à temps pour obtenir une lecture maximale.
