2. Power Button
3. 100W USB-C Input/Output Port
4. 60W USB-C Output Port
5. 100W USB-C Input/Output Port
6. 22.5W USB-A Output Port
7. 18W OCSSD Output Port
8. 18W ISSY Output Port
9. LED Light
10. Light Button
11. AC Input

BASIC PRODUCT SPECIFICATIONS

Model: OPB-P801C
Capacity/Energy: 80000mAh/296Wh
Input (Type-C): 5V⎓3A, 9V⎓3A, 12V⎓3A, 15V⎓3A, 20V⎓5A (100W Max)
Input (Type-C): 5V⎓3A, 9V⎓3A, 12V⎓3A, 15V⎓3A, 20V⎓4.5A (90W Max)
Input (Type-C): 5V⎓3A, 9V⎓3A, 12V⎓3A, 15V⎓3A, 20V⎓3.25A (65W Max)
Output (Type-C): 5V⎓3A, 9V⎓3A, 12V⎓3A, 15V⎓3A, 20V⎓5A (100W Max)
Output (Type-C): 5V⎓3A, 9V⎓3A, 12V⎓3A, 15V⎓3A, 20V⎓4.5A (90W Max)
Output (USB-A): 5V⎓4.5A, 9V⎓2A, 12V⎓1.5A (22.5W Max)
Output (OCSSD): 15V⎓1.2A (18W Max)
Output (OCSSD): 15V⎓1.2A (18W Max)
Total Output: 220W Max
*Variants just like models

USAGE INSTRUCTIONS

1. How to Activate (First-Time Use)
Before using the power bank for the first time, you must recharge it to activate the device.
Way to Activate:
Charge via AC wall socket: Use the included AC Charging cable.
Charge via USB-C: Use an 18W or higher wall charger.
Note: It is recommended to use the included 100W USB-C to USB-C charging cable and your own cell phone charger to ensure the power bank.

2. Recharge Your Power Bank
*** AC Recharging:** Recharge your power bank by connecting it to a wall socket with the included AC charging cable.

*** Type-C Recharging (100W Max):** Recharge your power bank by connecting it to a wall adapter with a Type-C cable. Two 100W Type-C Input/Output Ports (C & C) can be used to recharge simultaneously.

(Tip: Use a 100W USB-C cable and a 100W adapter for the best charging experience. The 100W Type-C cable is included in the box. The 100W adapter is sold separately.)

*** Simultaneous AC and Type-C Recharging:**
When AC charging is connected, the device will prioritize AC charging and turn off the C1 and C2 charging ports. Simultaneous C1 and C2 are charging the power bank simultaneously, the maximum input power is limited to 100W.

3. Powering Your Device
Your power bank is equipped with 3 Type-C output ports, 2 USB-A output ports, or the DC port. The power bank supports up to five devices charging simultaneously.
• Type-C & DC: Laptop charging ports. The device can support charging 2 laptops and multiple mobile phones at the same time.
• Type-C3: Suitable for mobile phones and smartwatches.
• USB-A: Suitable for mobile phones, tablets, and other USB-A devices.
• DC Port: Suitable for bulb lamps, TVs, fans, and routers.

Note: The power bank intelligently switches to smart fast-charging mode once it reaches your device's charging limit, ensuring optimal compatibility with the majority of devices such as Apple, Samsung, TECNO, Infinix, HP, OPPO, Lenovo, among others.

How to Start Charging:
When the "Power on by battery" indication shows on the LCD screen, your power bank is ready to charge devices. Simply connect to the main power button to turn the screen on or off.

4. Light Operation
Press the Light Button to switch between brightness levels.
• Low Brightness, after turning on the light, single-click the button to enter flashlight mode with high brightness.
• Low Brightness, after turning on high brightness, single-click the button to switch to SOS mode.
• Strobe/SOS: After low brightness, single-click the button to switch to strobe mode.
• Turn Off: After strobe mode, single-click the button to turn off the light.
• Shortcut: Long press the button for 3 seconds at any time to turn off the light.

• **Remaining Battery:** Displays current battery percentage.
• **IN / OUT:** Current Input / output power (W).
4:48S **Remaining Hrs:** Estimated time until the battery is depleted.
Recharge Hrs: Estimated time until the battery is fully charged.
• **UI button:** When the screen is awake, single-click the power button to switch the UI interface.

• **Screen Display Time & Settings:** Displays current battery percentage.
• **Screen Display Time:** Long press the power button for 3 seconds to reflect the screen-on time (Options: 30 Seconds, 5 Minutes, 15 Minutes, 60 Minutes).
