

**Edwin and Anne Kibathi**

Location: **London, UK**

Mission: **Pastoral ministry and church planting**

The year has started well and we are grateful to God for His mercies and guidance. There are several activities our Church will be involved in during the month of February and March.

The Health Team is in the process of preparing for a one-day HEALTH CONFERENCE in March. This is expected to bring together different health providers under one roof where both our members and the community will have an opportunity to interact with health professionals.

The Men's Fellowship in Reading Congregation will continue with the monthly walk on a Saturday morning. Their target is the men both in the congregation and the surrounding community. The aim is to help the men to socialise and improve both their mental and physical health.

The Ladies Fellowship will continue to meet monthly. This year, they have again decided to be alternating physical and online meetings. The aim is to encourage and support each other and particularly when they meet physically.

We continue to partner with other churches and Christian organisations which operate within the communities we are in. In London, we have Stratford Churches, Newham Transform and Faith in Schools among those that we work together.

**February 2026**

Together with praying for each other, joining hands with them makes the Christian witness more impactful while at the same time we learn from each other.

In the month of February Anne and I are in Kenya for a break.

**Prayer Points:**

- Thank God with us for the far He has brought us and that this year we will be enabled to reach out to more.
- That the Health Conference will reach many.
- That the programs that have been planned by both the men and women fellowships will be of great help to all participants. That the leaders will be granted wisdom and strength to continue.
- That our time in Kenya will be a time of rest and renewal. Also that we will have journey mercies when we return.
