

# SA024 POLE TOP RESCUE

## Introduction

The purpose of this accreditation is to provide learners with the necessary information to undertake the rescue operation by climbing the pole and by use of a Mobile Elevating Platform. (MEWP) This accreditation sets out the skills, knowledge and understanding to support the individual to use correct equipment and methods to carry out this task safely.

## Purpose

Prepare for further learning or training and/or develop knowledge and/or skills in a subject area

## Accreditation

Industry accreditation

## Learning Outcomes

- Understand relevant health and safety legislation and industry good practices related to this task.
- Understand how to formulate a plan for the aerial rescue operation
- Be able to carry out the aerial rescue safely

## Pre- requisite

This accreditation is available to anyone over the age of 18 who is capable of reaching the required standard. There are no barriers that restrict access or progression thereby promoting equal opportunity. It is expected however that learners will have a level of literacy adequate to cope with the assessment.

## Expectations at level 2

Achievement reflects ability to select and use relevant knowledge, ideas, skills and procedures to complete well-defined tasks and address straightforward problems. It includes taking responsibility for completing tasks and procedures and exercising autonomy and judgement subject to overall direction or guidance.

## Grading

Pass
