

### Q1 Theme 2023 – MaH

As a new resource for our first quarterly theme of 2023 – prevention of major accident hazards: **Emergency Response - Major Accident Hazard Awareness Film.**

This animated film and presentation aims to:

- help people be better equipped to recognize when a barrier on the right-hand side of the bow-tie has been impaired and know what action to take to report it
- assure the workforce at muster that there are plans and processes in place and engineered equipment to keep them safe

### Events
