FRIDAY 24TH MARCH 2023 BOOK NOW! www.stepchangeinsafety.net/events/

THIS IS NOT A DRILL

The Importance of Barriers on the Right-Hand Side of the Bowtie

Further new resources for Q1 – THIS IS NOT A DRILL

During a Major Accident, it is important that the detection, mitigation, emergency response and recovery barriers (all designed to prevent things getting worse after an event has happened) are present and healthy.

In this short film, Steve Rae, a survivor of the Piper Alpha disaster, introduces why these barriers on the right-hand side of the bowtie should be known, understood and ready to operate when required.

Safety Rep Event

We also have a number of spaces left for our Elected Safety Rep Event next month. Held on the 28th April to celebrate World Safety Day and open to all safety reps, safety professionals and other members with a passion for safety. With an array of passionate speakers and some wonderful hospitality - book your place now by clicking below – all events are free to attend – but you must book your place by clicking on the image below.
