CLIMEX® Desiccant Dehumidifier DD130

CLIMEX® Desiccant Dehumidifier DD130

The CLIMEX® Desiccant Dehumidifier DD130 is an absorption type dehumidifier with desiccant rotor and is designed to dehumidify air at atmospheric pressure.

The DD130 can be used to dehumidify air at a relative humidity up to 100% and temperature from -20°C to +40°C effectively in environments where low humidity is required. It is ideal for applications where heating the area to be dried is impractical or unnecessary.

It can be located either in or outside of the area to be dried or used to provide ventilation with low %RH air.

Features & Benefits

- ✓ Effective at a wide temperature range
- ✓ Efficient drying even in low temperatures
- ✓ Mobile and easy to set up

Key Applications

- ✓ Tanks and Silos
- ✓ Protection of sensitive equipment and materials
- ✓ Improved environmental conditions

Technical Specifications

Dimensions L x H x W	89cm x 57cm x 102cm
----------------------	---------------------

Weight	62 kg
--------	-------

Power supply	415V/16A (3ph+Neutral)
--------------	------------------------

Power rating	7.3 kW
--------------	--------

Run current (Maximum)	13A
-----------------------	-----

Process air inlet & outlet diameter	250mm
-------------------------------------	-------

Regeneration air outlet diameter	160mm
----------------------------------	-------
