

Climex Floor Fan 500

Portable and effective

Key Product Features

- ✓ Variable speed
- ✓ Plastic mould injection body
- ✓ Tilttable
- ✓ Tough ABS body Available in 240v and 110v
- ✓ Will blow along 20m of 500mm ducting

Producing airflows of 8000m³/Hr, this fan is regularly used with temporary heating systems.

Air movement is critical to an effective drying out programme and these fans can be used to spread large volumes of warm air through the required areas, helping to speed up drying times, and ensuring maximum heat coverage is achieved.

This fan can also be used effectively with dehumidifiers.

CLIMEX®

Climex Floor Fan 500

Technical specifications

Voltage	230/115V	
Air output	6500 cfm	
Max airflow	8000 m ³ /hr	
Cable length	2.5m	
Noise levels dB	high 58, low 42	
Net weight	17Kg	
Dimensions mm	H	820
	W	800
	D	320
