

Dustex Air-Lock

Designed to create an isolation airlock between a building site and surrounding sensitive environments and is especially for use when a negative pressure cannot be achieved within the work area due to the work site being landlocked.

It can be used with the Raptor Dust Filtration Unit complete with HEPA filter to create a positive pressure within the tent to ensure there is no risk of dust migration from the work site into surrounding areas.

Features & Benefits

- ✓ Partially translucent
- ✓ Fire retardant materials
- ✓ Quick to install
- ✓ Covers can be easily taped to adjacent walls to create complete seal.
- ✓ Edges come with Eyelets to allow covers to be fixed to adjacent walls by battens to increase stability if required
- ✓ 2m wide x 1.25m deep and 2.2m high

Key Applications

- ✓ Hospitals
- ✓ Retail developments

Image for illustrative purposes only, actual unit may vary, see dimensions listed under features and benefits.
