GIGAMEDIA
SMART BUILDING SOLUTIONS

Included in THE KIT

- ▶ 2 wireless battery cameras
- ▶ 1 x NVR (1 TB included)
- ▶ Power supply to recharge battery

IDEAL FOR:

HOME USE

SMALL BUSINESS

The new **GIGAMEDIA** videosurveillance **KIT** is dedicated for **SMALL BUSINESSES INSTALLATIONS** (home use and small commercial projects).

FEATURES:

- ▶ 2 cameras including battery with 2MP resolution for an installation in isolated places where no cables can be installed.
- ▶ Indoor/outdoor installation.
- ▶ Embedded PIR sensor for motion detection recordings with distance up to 10 m.
- ▶ 2.8 m lens with wide coverage: 120°.
- ▶ Night vision up to 8 m.
- ▶ Integrated microphone and speaker for bi-directional communication using smartphone.
- ▶ Lifetime of the battery: 5 months*.
- ▶ Wireless distance between camera and NVR is around 50 m**.
- ▶ NVR is able to support up to 6 cameras (additionnal camera: GGM KITWIFICAMB).
- ▶ Recording is only possible on motion detection*** when the camera is connected to the battery.

* Considering 10 motion detections per day and for each recording time of 10 seconds.

** For information, can be different depending on the environment and constraint on site that can alterate the Wi-Fi signal.

*** It is possible to record continuously if the camera is connected to the power line.

INSTALL YOUR KIT IN
LESS THAN 20 MINUTES

1. Integrate your NVR in the GGM VIEW App
2. Plug the battery in the camera
3. Synchronize cameras with the NVR
4. Put your cameras at the final place
5. Configure all system settings from your mobile app

ADVANTAGES OF THE SOLUTION

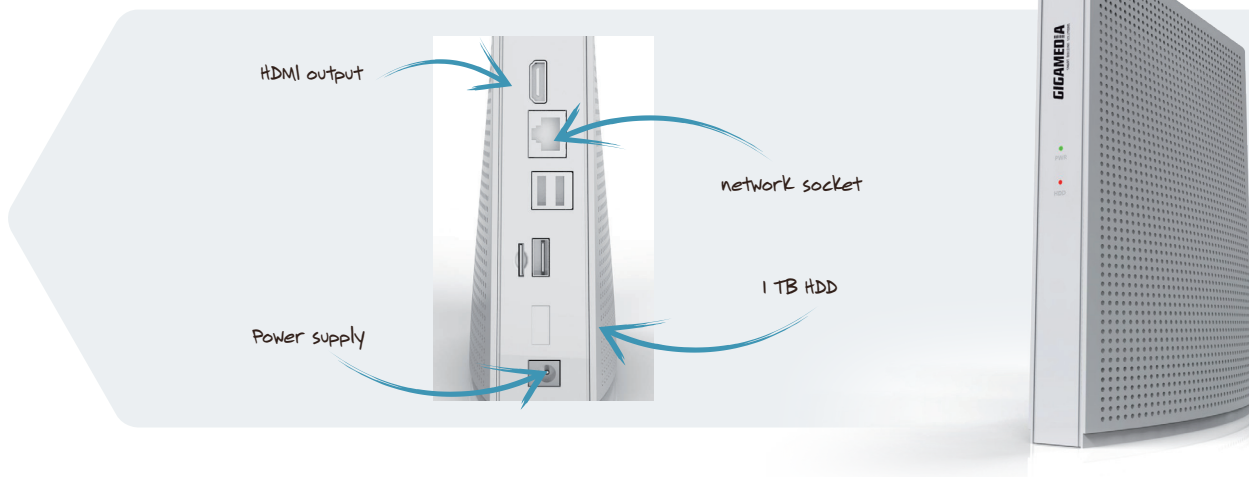

CAMERAS: 2MP RESOLUTION

There are **two possibilities to recharge the battery** with the cable delivered:

- ✓ Recharge directly the camera.
- ✓ Remove the battery from the camera body without removing the camera.

NVR: A NICE DESIGN FOR INTEGRATION INTO YOUR LIVING ROOM

The NVR supports up to 6 cameras and integrates HDMI output for high definition display on your monitor. You can record, playback and also check recordings simultaneously. It is also possible to plan your records thanks to the integrated schedule.
