

# CREATE A CODE

You don't need a computer to learn the basics of coding.  
Create your own code and asking a friend to break it.

Start with something very simple, such as replacing each letter of the alphabet with a number. Other ideas to try are designing a symbol for each letter or moving each letter a set number of spaces forward or backwards. For example A could become C and B become D.

|   |   |   |   |   |   |   |
|---|---|---|---|---|---|---|
| a | b | c | d | e | f | g |
|   |   |   |   |   |   |   |

|   |   |   |   |   |   |   |
|---|---|---|---|---|---|---|
| h | i | j | k | l | m | n |
|   |   |   |   |   |   |   |

|   |   |   |   |   |   |   |
|---|---|---|---|---|---|---|
| o | p | q | r | s | t | u |
|   |   |   |   |   |   |   |

|   |   |   |   |   |  |  |
|---|---|---|---|---|--|--|
| v | w | x | y | z |  |  |
|   |   |   |   |   |  |  |
