

# SEED RACES

Set up your own seed Olympics with these fun seed races! Which seed will germinate first, which will be the tallest and which will have the strongest roots?

## You'll need

A selection of seeds- radish, cress, broad bean, lettuce, and pumpkin

Transparent cups

Soil

Water

## Instructions

Fill the cups about 3/4 full of soil.

Place each type of seed in a separate cup near the side (so you can see the seed sprout), and place a little soil on top.

Sprinkle the same amount of water into each cup.

Add a little water to the soil each day or when it looks dry.

Remember, each seed should receive the same amount of water and soil to ensure the investigation is fair.

Check the seeds each day and record any observations.

## Categories

**The Sprinter** - First to germinate

**Hurdler** - First green shoot

**High Jumper** - Tallest

**Bodybuilder** - Thickest Stem

**Weightlifter** - Strongest roots
