

Improving aid localization through settlement-based interventions

Settlements-based approaches deliver more efficient, targeted, and localized interventions at all stages of the program management cycle.

Please join Catholic Relief Services, IMPACT Initiatives, InterAction, and the Norwegian Refugee Council on **Thursday, April 22 at 12 P.M. UTC/8 A.M. EST** to discuss how humanitarian actors can partner more effectively with local actors using the settlements approach across multiple sectors.

With opening remarks from Brett Moore, Global Shelter Cluster
