

Luhansk Oblast
Subnational Cluster Meeting
Severodonetsk
20 June 2018

Agenda:

1. Roundtable introduction of Participants
2. Review of the previous meeting decisions
3. Goals and benefits of the Shelter Cluster
4. Interactive tools to improve participation and involvement
5. Focal points for past winterization 2017-2018
6. New damages update
7. Update from Partners on current Shelter Programs
8. AOB and Wrap-up

Present: UNHCR, ADRA Ukraine, Caritas, ICRC, NRC, Proliska, UN OCHA, MinTOT/Luhansk

Reviewing Previous Action Points

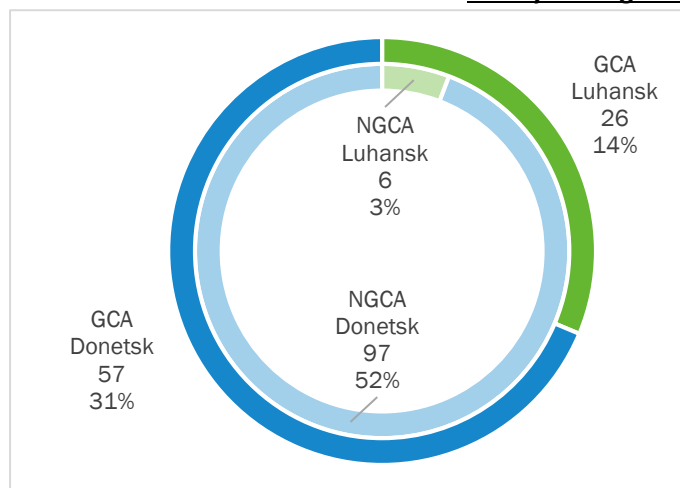

Review of action points from the previous Subnational meeting:

Action point	Who	Status
Agencies to appoint focal points for Winterization	Humanitarian partners	Ongoing
Agencies to share success stories or important information for Factsheet	Humanitarian partners	Ongoing

The Cluster reminded again agencies to contribute to the Cluster quarterly Factsheet with their field notes, success stories, photos etc.

In addition, the Cluster requested partners to share their PDMs for the preparation of the new winterization recommendations for 2018-2019.

Newly damaged houses

The Subnational Coordinator updated partners with the statistics on newly damaged houses.

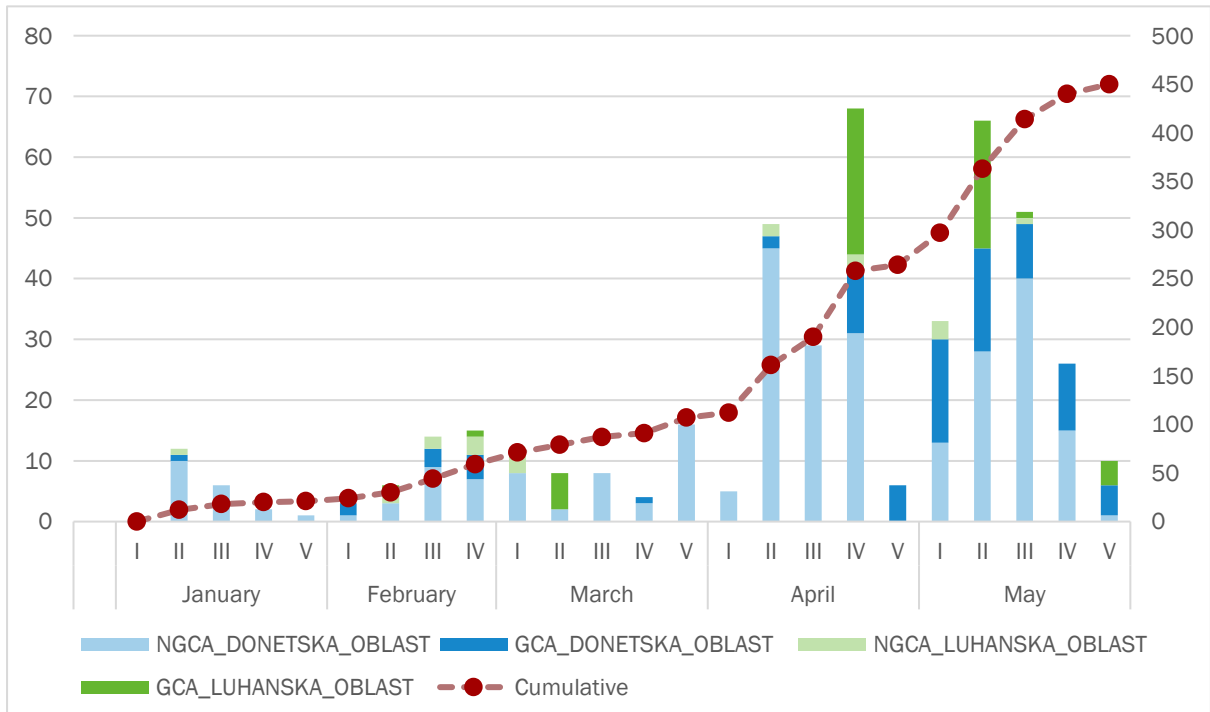

Statistics for May 2018

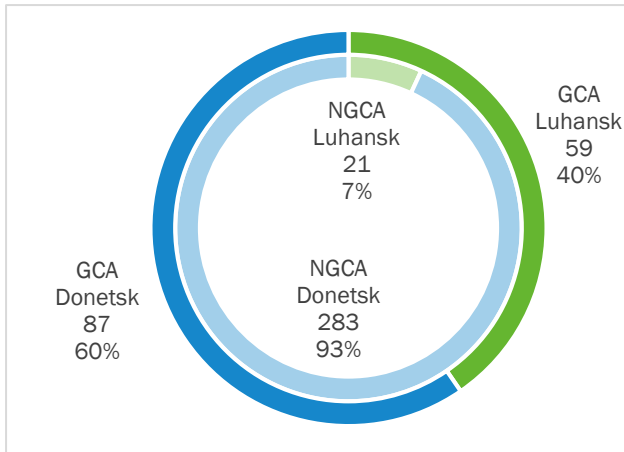

186 houses were reported as damaged in the month of May, this year: 83 (45%) in GCA and 103 (55%) in NGCA.

The Subnational Co-ordinator presented also a calendar with the distribution of the incidents in each day of the month:

2018 Calendar of Incidents and Damages (inhabited houses only)							
	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
May 2018		1	2 D.O.:Olenivka NGCA 2 houses damaged	3 D.O.:Zaitseve, Donetskiy, Dokuchaievsk NGCA, Zhovanka, Mayorsk, L.O.:Zolote GCA 18 houses damaged	4 D.O.: Gorlivka NGCA 2 houses damaged	5 D.O.:Dokuchaievsk NGCA, Pyshevyk GCA 4 houses damaged	6 D.O.: Holmivskiy NGCA, Mykolaivka Zaitseve GCA 7 houses damaged
	7	8 L.O.:Leskultivka GCA, D.O.: Horlivka, Zaitseve NGCA 39 houses damaged	9 L.O.:Katerinivka GCA, D.O.:Zaitseve GCA 3 houses damaged	10 D.O.: Pivdene GCA 1 house damaged	11 D.O.:Zaitsevo, Spartak NGCA 4 houses damaged	12 D.O.: Horlivka NGCA 14 houses damaged	13 D.O.: Dokuchaievsk, Shyroka Balka NGCA, Zalizne GCA 5 houses damaged
	14	15 D.O.: Novhorodske, Nelipivka GCA 12 houses damaged	16 D.O.: Horlivka NGCA, Mykolaivka, Holmivskiy, Vozdvyzhenka GCA L.O.: Lugansk NGCA 9 houses damaged	17 D.O.: Sakhanka NGCA, Svilodarsk GCA 6 houses damaged	18 D.O.: Pikuzy, Donetsk,Horli vka NGCA, Toretsk GCA L.O.: Kraikavka 15 houses damaged	19 D.O.: Toretsk, Zaitseve GCA 4 houses damaged	20 D.O.: Zaitseve NGCA/GCA 4 houses damaged
	21 D.O.: Horlivka NGCA, Avdiivka, Marinka, Zaitseve 8 houses damaged	22 D.O.: Pikuzy, Sakhanka NGCA, Marinka GCA 4 houses damaged	23	24 D.O.: Zaitseve NGCA/GCA 3 houses damaged	25 D.O.: Horlivka, Dokuchaievsk NGCA, Toretsk GCA 6 houses damaged	26	27
	28 D.O.: Chermalyk GCA L.O.: Donetskiy NGCA 6 houses damaged	29 D.O.: Chermalyk GCA 2 houses damaged	30 D.O.: Dokuchaievsk NGCA, Zhovanka GCA 2 houses damaged	31 D.O.: Chermalyk GCA 1 house damaged	D.O. Chigij GCA 50 houses damaged		

In addition, the cumulative analytics for the first five months of the year was presented in the graph:

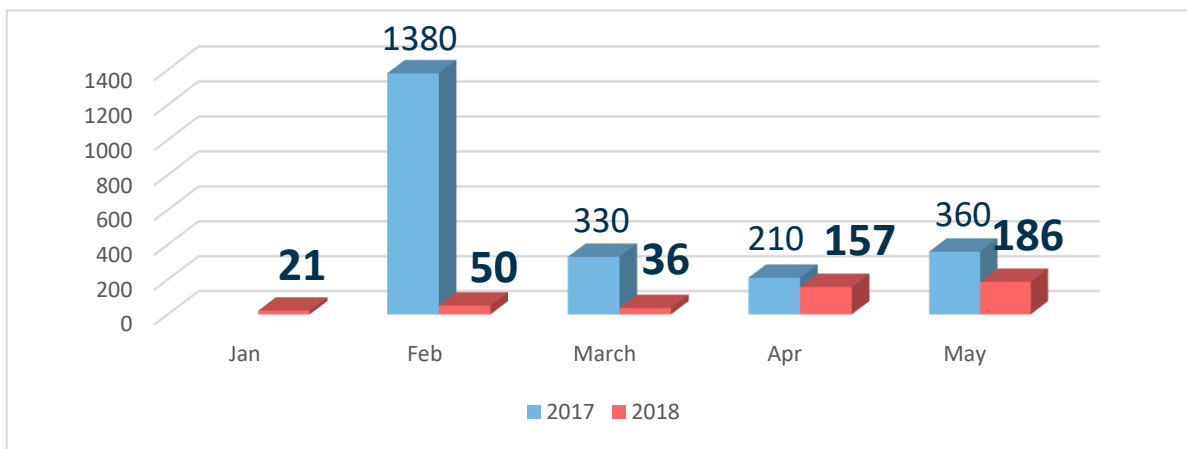

Statistics for the period January - May 2018

450 houses were reported as damaged in the first 5 months of 2018: 146 (32%) in GCA and 304 (68%) in NGCA.

Flash-points in May: Novoazovskiy raion (near Mariupol), Zaitseve, Toretsk, north-western districts of Donetsk city and Dokuchaevsk area.

The last chart to be presented is the usual comparison of the first 5 months of 2018 with the correspondent period of the last year.

Important note: figures in this table include both GCA and NGCA damages. Since no verified statistics exist for NGCA damages in 2017, this table is based on the damages reported in 2017 in GCA and on a ratio GCA/NGCA roughly set at 1:2 on the basis of the 2018 trend.

Focal points for winterization activities;

workshop dedicated to recommendations for winter activities in 2018-2019

All partners, participated in winterization activities in 2017-2018, have agreed to assign focal points to share PDM findings and lessons learned. Winterization recommendations drafted during a dedicated workshop will be built on the PDM reports from the partner's part.

Goals and benefits from participating in the Shelter/NFI Cluster activities

With the little change in the Shelter Cluster team, there was a necessity to remind old and new partners about goals of the Cluster and the ways that organizations can benefit from participating in it.

The Shelter/NFI Cluster exists to make sure every single beneficiary eligible for humanitarian assistance gets means to live in a safe, dignified and appropriate shelter.

Feedback from partners was requested to know if benefits are still relevant and accessible.

- Up-to-date information showing shelter needs, how these needs are being met, who meets them, as well as the remaining gaps. This includes maps, factsheets, distribution data etc.

- Technical expertise and lessons learnt
- A place where shelter actors can agree on standards and decide on common strategies
- Information about available funding, what it is for and how to access it
- A platform for coordination to help avoid duplication and overlap of activities and to facilitate targeting of those most in need
- Advice on how to connect the current shelter programmes to early recovery, contingency planning and risk reduction
- A team that will advocate on behalf of the shelter sector.

Interactive tools to improve participation and involvement

The Shelter/NFI cluster team has suggested using interactive tools to improve participation and involvement of its partners besides conventional ways of communication. Groups on social communication platforms might in the future facilitate the exchange of information among stakeholders. Every participant can have an on-line access to any sort of updates produced by the Cluster and make his/her contribution as well. All pieces of information are welcomed so not to overlook critical details.

Partner Updates

NRC: currently working on two projects with NMFA and UNHCR. Funds available from NMFA cover the repair works on 4 core-houses (3 already ongoing) and 11 heavy scale repairs (but 13 houses have already been identified). Out of 25 core houses under UNHCR, 23 have been selected. Beneficiaries eligible for heavy repairs (30) have been selected too, and 210 out of 310 for light and medium have been selected too. To date, 17 HR agreements have been signed. ECHO project is underway – 150 L/M repairs, 100 windows and 40 house insulations. The team of three people is making assessment on backlog damages in two regions.

ADRA: finalized winterization activities; plans for shelter – 1000 LR, 530 MR and 25 HR, 100 house insulations (40% in Luhansk oblast). To date 1000 application forms have been processed and works Started on 53 houses.

UNHCR: did PDM on winterization cash (a sample equal to 10% out of 300 households); in Severodonetsk is working in partnership with NRC on shelter activities; is planning 6 interventions that include public infrastructure repairs; winterization activities undecided yet.

OCHA: from the middle of the summer will start reviewing needs and drafting new Humanitarian response plan.

Caritas: Basic needs project with MPC (860x4 UAH in four stages) to 400 beneficiaries in 2018, solid fuel (briquettes) to 400 households.

Action Points	Who
Workshop dedicated to winterization activities	All partners
Agencies to share success stories or important information for Factsheet	All partners
