

Shelter Cluster Dashboard - Region VII CEBU (26/01/2014)

This information is based on activities reported to the shelter cluster by 19/01/14. For coordination please contact coord2.phil@sheltercluster.org. Questions about data can be sent to im4.phil@sheltercluster.org.

Gaps in targeting of emergency shelter

Municipalities are sorted on estimated damage density. The top bar chart shows the total number of households targeted for emergency shelter versus the number of households reached and planned.

Agency activities in emergency shelter and support to self recovery

The table below shows the total households reached per activity for each agency

Agency	Emergency Shelter		Support to self recovery of shelter											
	HH reached with emergency shelter		HH provided with roofing materials		Provision of other materials		HH with transitional or core shelters		ToolKit (HH with access to toolkits)		Training of capenters (number trained)		Cash programming	
	Planned	Reached	Planned	Reached	Planned	Reached	Planned	Reached	Planned	Reached	Planned	Reached	Planned	Reached
Caritas Switzerland		13,851								14,113				
Citizens' Disaster Response ..		4,450												
Danish People's Aid		0					40					27		
Enfants du Mekong		0												
Habitat for Humanity	480	3,059		1,486		1,486				1,486				
HelpAge-COSE	0	1,526								1,526			205	
IOM	855													
Islamic Relief Worldwide (IRW)	0	11,272					270			3,280			2,322	
LUTHERAN WORLD RELIEF	0	0	1,129	1,457	1,129	1,457			1,129	1,457			1,200	
Malteser International		30											118	
PDRN	0	0	0											
People in Need (PIN)	0		1,000											
Polish Humanitarian Action	0		1,000											
PRCS - GRC		1,000								500				
PRCS - IFRC		6,078								867				
PRCS - Swiss RC		3,500		3,170		3,170				3,170

Sign of Hope	0	0	26	64	26	64	26	64			10	20		
World Vision	5,122													
Grand Total	6,556	54,693	3,155	10,677	1,155	6,177	296	104	1,228	33,704	10	47	3,944	2,420

Key facts

- 103,000** households are affected in the 16 most hit municipalities in the north of Cebu
- 53%** of affected households are reached with emergency shelter support
- 13%** of affected households received support to self recovery of shelter
- 21** agencies share their activities through the shelter cluster

Current status in Cebu

Acute shelter needs have largely been addressed as a result of significant distribution of emergency shelter material in the past months. However shelter conditions remain precarious for hundreds of families. In several instances, emergency shelters are barely adequate to withstand current weather conditions and families require more sustainable solutions. A significant capacity gap is affecting shelter self-recovery and reconstruction. The gap is more acute on the Cebu mainland, where few humanitarian organisations are available in some municipalities. Projects are generally small-scale in size and funding is limited in time.

Notes on the data

What is known

The data presented in this dashboard is only the data reported to the Shelter Cluster by agencies. In general almost all agencies are reporting to the Shelter Cluster. The efforts of local government and many small local NGO's are not captured thus far. The Shelter Cluster motivates all agencies working in the shelter response to report their activities to reporting.phil@sheltercluster.org

Needs data

Due to a lack of consolidated household needs data, the needs are currently presented as damage density. The damage density is the number of houses damaged (both partial and total) divided by the total number of houses.

Validity of data

The number of houses damaged is based on the DROMIC data which was last updated 18 december 2013. The number of houses is calculated by using a projection of the population in 2013, divided by the average number of persons per household (4.7). The damage density is just an indication and could be well off if the population or damage data provided by the government is incorrect. Partners are advised to do a local assessment. If there is a mismatch, please inform the Shelter Cluster through reporting.phil@sheltercluster.org

Gap table for emergency shelter and support to self recovery

The gap table is sorted by number of households that have not received support to self recovery.

MUNICIPALITY STD	Estimated percentage of houses damaged	Total planned emergency Shelter	Gap Emergency Shelter (# of households)	Total planned support for Self Recovery	Gap for Support to Self Recovery (# of households)
BANTAYAN	97%	83%	2,700	20%	13,047
CITY OF BOGO	78%	29%	8,735	0%	12,365
SAN REMIGIO	78%	5%	8,565	2%	8,840
MEDELLIN	89%	100%	0	15%	8,627
