Introduction to ActivityInfo

- ActivityInfo is an online platform designed to support organizations and partners in managing, tracking, and reporting their humanitarian activities. It provides a user-friendly interface to collect, store, and analyze data related to various sectors, including shelter, WASH, protection, and Temporary Settlement Support (TSS).

Number of Partners Reported on ActivityInfo Last Month

Number of partners is 25

5 Partners actively reported their activities in the last two months.

The Importance of Reporting

**Centralized Data
Management**

**Data Accuracy
and Quality**

**Real-Time
Monitoring**

Registration and Access

To get started, partners need to register on ActivityInfo and request access to the relevant database for their activities. Each organization will have its own unique login credentials.

The screenshot shows the ActivityInfo login interface. At the top left, there is a logo consisting of a teal square with a white 'A' and the text 'ActivityInfo' to its right. Below the logo is a teal horizontal bar. The main content area is light gray and contains the following elements: the heading 'Log in', an 'Email' field with the value 'Sheltersectorim1.tur@ifrc.org' and a 'change' link, a 'Password' field with a 'Forgot your password?' link, a 'Log in' button with a teal background and a white right-pointing arrow, and a dark red horizontal bar at the bottom of the page.

Data Entry and Forms

ActivityInfo uses forms to capture data. These forms are customized to collect specific information about the activities in the shelter, protection, and TSS sectors. We'll explore how to fill in these forms accurately.

What we expect?

- We value effective communication and collaboration with our partners.
- Partners are currently reporting **Bi weekly** on activity Info.
- Regular reporting is essential for tracking progress, addressing challenges, and making informed decisions.
- Transparent reporting enhances accountability and strengthens our partnership.

Enhancing Activity Info

Enhancing Reporting with Planning
